2 准备打印

本节主要包含以下主题：

- [装入纸张](#)
- [插入墨盒](#)
- [插入存储卡](#)

装入纸张

了解如何为打印作业选择正确的纸张，以及如何将其放入进纸盒以备打印。

选择正确的纸张

使用 HP 高级照片纸。它专门用于打印机上的墨水，可以生成优美的照片。而其他照片纸的打印效果会不尽人意。

要获得可用的 HP 设计的照片纸列表，或是要购买耗材，请访问：

- www.hpshopping.com（美国）
- www.hp.com/eur/hpoptions（欧洲）
- www.hp.com/jp/supply_inkjet（日本）
- www.hp.com/paper（亚太地区）

打印机的默认设置为在 HP 高级照片纸上打印最佳质量的照片。如果用其他类型的纸张打印，请确保在打印机菜单中更改纸张类型。请参阅[打印机菜单](#)。

放入纸张

放入纸张提示：

- 打印面朝下放入纸张。
- 您可以在各种尺寸的纸张上（从 8 x 13 厘米（3 x 5 英寸）到 22 x 61 厘米（8.5 x 24 英寸））打印照片和文档。10 x 15 厘米（4 x 6 英寸）的照片纸可以带或不带裁边。
- 在放入纸张前，请拉出主纸盒并向外滑动纸张宽度导轨和长度导板为纸张留出空间。放入纸张后，调节导轨和导板使其紧靠纸张的边缘，同时使纸张保持平整。放入纸张后，将主纸盒完全推回到位。
- 在同一个纸盒中，一次只能装入同一类型和尺寸的纸张。
- 放入纸张后，展开出纸盒延长板以接住打印的纸张。

参考下表中的说明将常用尺寸的纸张放入打印机。

小心 防止墨水流失或溢出：运输打印机过程中让墨盒停留在安装位置，并避免将使用过的墨盒放在打印机外太长时间。

插入或更换墨盒

1. 确保电源已打开，然后抬起顶盖。确保已从打印机内部取出所有包装材料。

2. 按压墨盒插槽下方的灰色突块，释放打印机内部的灰色卡销，然后提起卡销。
墨盒区采用了颜色编码以便参照。抬起相应颜色下方的卡销以插入或更换墨盒。墨盒的颜色从左到右分别为黑色、黄色、浅青色、青色、浅品红色及品红色。

1	黑色墨盒的墨盒卡销
2	彩色墨盒区

3. 如果要更换墨盒，请将旧墨盒向外拉出其插槽。

回收旧墨盒。在许多国家/地区都可以利用 HP 喷墨耗材回收计划，让您可以免费回收用过的墨盒。有关详细信息，请访问 www.hp.com/hpinfo/globalcitizenship/environment/recycle/inkjet.html。

4. 从包装盒中取出新墨盒，然后握住其手柄，将墨盒滑入空插槽中。确保插入墨盒的插槽上的图标形状和颜色与新墨盒上的一致。插入墨盒时，铜色触点应该朝向打印机。

注意 首次安装和使用打印机时，请确保安装打印机随附的墨盒。这些墨盒中的墨水经特别配方研制，可与打印头组件中的墨水混合。

5. 向下按压灰色卡销直到它卡入到位。

6. 对每个需要更换的墨盒重复步骤 2 至 5。
您必须安装所有六个墨盒。如果缺少一个墨盒，打印机将无法工作。
7. 合上顶盖。
当检测到墨水量过低时，触摸屏会显示六个墨滴图标，指示出每个墨盒的大概墨水量。

注意 如果您使用非 HP 墨水，该墨盒的图标位置将会显示为一个问号而不是墨滴。打印机无法检测到装有非 HP 墨水的墨盒中的剩余墨水量。

插入存储卡

使用数码相机拍完照片后，可以从相机中取出存储卡并将其插入打印机中，以查看并打印照片。打印机可读取下列类型的存储卡：CompactFlash™、Memory Sticks、Microdrive™、MultiMediaCard™、Secure Digital™，以及 xD-Picture Card™。

小心 使用任何其他类型的存储卡可能会损坏存储卡和打印机。

要了解详情将照片从数码相机传输到打印机的其他方法，请参见[连接到其他设备](#)。

支持的文件格式

打印机可直接从存储卡中识别和打印以下格式的文件：JPEG、未压缩 TIFF、Motion JPEG AVI、Motion-JPEG Quicktime 和 MPEG-1。如果数码相机将照片和视频剪辑保存为其他文件格式，请将这些文件保存到计算机并使用软件程序进行打印。有关详细信息，请参阅电子版帮助。

插入存储卡

- [维护照片纸质量](#)

清洁和维护打印机

使用本节所述的简易方法，保持打印机和墨盒的清洁并进行良好的维护。

清洁打印机外部

1. 关闭打印机，然后从打印机后面断开电源线。
2. 用蘸有少量清水的软布擦拭打印机的外部。

小心 请勿使用任何清洁液，家用清洁剂和洗涤剂会损坏打印机的表面涂层；请勿清洁打印机内部，防止液体进入打印机内部；请勿润滑支撑打印头滑动的金属杆，打印头前后移动时发出声响是正常现象。

校准打印机

当自检报告的任何颜色块中显示条纹或白色线条时，请按照以下程序操作。

如果校准打印机后仍然存在打印质量问题，请尝试按照 [保养与维护](#) 所述程序清洁打印头。如果在校准和清洁后，仍然存在打印质量问题，请与 HP 支持联系。

1. 在主纸盒中放入未用过的 letter 或 A4 尺寸的普通白纸。
2. 触摸 **设置**。
3. 触摸 **“工具”** 然后滚动查找 **“校准打印机”**。
4. 触摸 **“校准打印机”**。
打印机将会校准打印头、打印校准页并校准打印机。回收或丢弃校准页。
5. 触摸 **OK**。

打印样本页

您可以打印样本页来测试打印机的照片打印质量，并确保已正确放入纸张。

1. 将纸张放入主纸盒。使用普通纸以节约照片纸。
2. 触摸 **设置**。
3. 触摸 **“工具”**，然后触摸 **打印样本页**。

自动清洁打印头

如果在打印的照片或自检报告的颜色块中发现白色线条或条纹，请按照此程序清洁打印头。请在必要时再清洁打印头，因为这将会浪费墨水并缩短打印头上墨水喷嘴的使用寿命。

1. 将纸张放入主纸盒。使用普通纸以节约照片纸。
2. 触摸**设置**。
3. 触摸“**工具**”，然后滚动到“**清洁打印头**”。
4. 触摸“**清洁打印头**”。

如果在清洁打印头后打印质量仍然不佳，请尝试按照[校准打印机](#)所述的程序校准打印机。如果在清洁和校准后，仍然存在打印质量问题，请与 HP 支持联系。

手动清洁墨盒触点

如果打印机屏幕显示墨盒缺失或损坏信息，请清洁墨盒的铜色触点。

清洁墨盒触点前，请取出墨盒并确认没有物件遮盖墨盒触点或墨盒插槽，然后装回墨盒。如果仍然显示墨盒缺失或损坏信息，请清洁墨盒触点。如果清洁墨盒触点后仍然显示此信息，则需要更换墨盒。取出有问题的墨盒，查看底部的质保截止日期，日期格式为 YYYY/MMM/DD（年/月/日）。如果在保质期之内，请与 HP 支持联系以更换墨盒。

清洁墨盒触点：

1. 准备好清洁触点所需的下列物品：

- 蒸馏水、过滤水或瓶装水（自来水中可能包含会损坏墨盒的杂质）

小心 不要使用滚筒清洁器或酒精来清洁墨盒触点。这些物质会损坏墨盒或 HP Photosmart 打印机。

- 使用干燥的泡沫橡胶拭子、无绒布、或者不会散开或留下纤维的任何柔软材料。

2. 打开打印机的顶盖。
3. 按压墨盒插槽下方的灰色突块，释放打印机内部的灰色卡销，然后提起卡销。

小心 不要同时取出多个墨盒，一次仅取出和清洁一个墨盒，请勿将墨盒放在打印机外面超过 30 分钟。

4. 用水稍微润湿拭子或软布，并挤掉多余的水分。
5. 握住墨盒手柄，然后用拭子或软布只轻轻擦拭铜色触点。

1 | 只轻轻擦拭铜色触点

6. 将墨盒放回空的插槽，然后向下按压灰色卡销直到它卡入到位。
7. 如有必要，请重复此步骤清洁其他墨盒。
8. 合上顶盖。

小心 供墨装置可能增压。将异物插入供墨装置会导致墨水喷出并溅到人员或物品上。

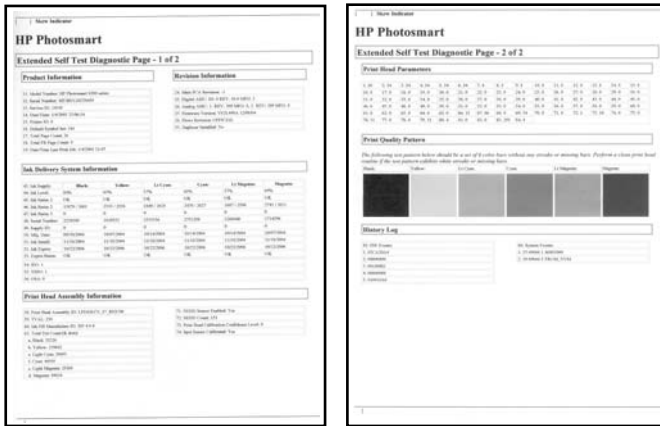

打印自检报告

如果遇到打印问题，请打印自检报告。这份两页式的报告 - 标记为“扩展自检诊断页” - 可以帮助您诊断打印问题，并为您提供在致电 HP 支持时所需的有用信息。您也可以使用此报告来检查墨盒中剩余的估计墨水百分比。

1. 触摸**设置**。
2. 触摸“**工具**”，然后滚动到“打印测试页”。
3. 触摸“**打印测试页**”。

HP Photosmart 打印机会打印包含下列信息的两页式自检报告：

- **产品信息**：包括打印机型号、序列号和其他产品信息。
- **版本信息**：包括固件版本号，以及说明是否安装了 HP 双面打印附件（双面打印机）。
- **供墨系统信息**：显示所安装的每个墨盒的估计墨水量、状态、安装日期以及有效日期。
- **打印头组件信息**：包括需要致电 HP 支持时用于诊断的信息。
- **打印头参数**：包括需要致电 HP 支持时用于诊断的信息。
- **打印质量图案**：显示六个颜色块，分别代表安装的六个墨盒。当颜色块中出现条纹，或缺少颜色块时，请按照**保养与维护**所述的程序清洁打印头。如果清洁打印头后颜色块仍然显示打印质量问题，请按照**校准打印机**所述的程序校准打印机。如果在清洁和校准之后，颜色块仍然显示打印质量问题，请与 HP 支持联系。
- **历史记录**：包括需要致电 HP 支持时用于诊断的信息。

自检报告

更新软件

定期下载最新的打印机软件更新程序，以确保软件拥有最新的功能和改进。您可以访问 www.hp.com/support 或使用“HP 软件更新”来下载打印机软件更新。

注意 从 HP 网站下载的打印机软件更新不能更新 HP Photosmart Premier 软件。

下载软件 (Windows)

注意 在使用“HP 软件更新”前，确保已连接到 Internet。

1. 从 Windows “开始” 菜单中，选择“程序”（在 Windows XP 中，选择“所有程序”）> “Hewlett-Packard” > “HP 软件更新”。将打开“HP 软件更新”窗口。
2. 单击“立即检查”。“HP 软件更新”会搜索 HP 网站查找打印机软件更新。如果计算机没有安装最新版本的打印机软件，“HP 软件更新”窗口中将显示软件更新。

注意 如果计算机安装了最新版本的打印机软件，则“HP 软件更新”窗口中会显示以下信息：“此时没有系统可用的更新”。

3. 如果有软件更新可用，单击软件更新旁边的复选框将其选中。
4. 单击**安装**。
5. 按照屏幕上的说明完成安装。

下载软件 (Mac)

注意 在使用“HP Photosmart 更新工具”前，确保已连接到 Internet。

1. 在 Mac 的 Finder 中，选择“转到” > “应用程序”。
2. 选择“Hewlett-Packard” > “Photosmart” > “HP Photosmart 更新工具”。
3. 按照屏幕上的说明检查软件更新。
如果使用了防火墙，您需要在更新工具中输入代理服务器信息。

打印机与墨盒的存放与运输

为了保护打印机和墨盒，在不使用时应妥善存放。

存放和运输打印机

打印机在设计上可经受长期或短期的闲置。将打印机存放在户内无阳光直射并且温度不会过高或过低的地方。

小心 防止墨水流失或溢出：运输或存放打印机时不要让它侧边着地，并且让墨盒保持在安装位置。

存放和运输墨盒

运输或存放打印机时，请始终将正在使用的墨盒留在打印机中以防止墨水变干。

小心 1 防止墨水流失或溢出：存放或运输打印机时让墨盒保持在安装位置，并避免让用过的墨盒留在打印机外过长时间。

小心 2 在拔下电源线之前，请确保打印机完成了断电操作过程。此过程可使打印机正确放置打印头。

按照该提示进行操作有助于维护 HP 墨盒并确保稳定的打印质量：

将所有不使用的墨盒保存在其原始密封包装中，直到需要时再取出来。请在室温下存放墨盒 (15-35 ° C 或 59-95 ° F)。

维护照片纸质量

要获得照片纸的最佳打印效果，请遵循本节的指导原则。

存放照片纸

- 将照片纸存放在原始包装中，或放入可重新封装的塑料袋中。
- 将包好的照片纸存放在平坦、凉爽、干燥的平面上。
- 将不使用的照片纸放回塑料袋中，纸张留在打印机内或暴露于外界环境中会发生卷曲。

使用照片纸

- 请始终拿取照片纸的边缘以免留下指纹。
- 如果照片纸边缘卷曲，将纸张放在塑料储存袋中并轻轻地朝卷曲的相反方向弯曲，直到纸张恢复平整。

解决方法 打印机出现硬件错误，可能需要进行维修。拔下打印机电源线。等待大概 10 秒钟，然后再插上电源线。打开打印机电源。如果指示灯仍然闪烁，请访问 www.hp.com/support 或与 HP 支持联系寻求帮助。

打印问题

在联系 HP 支持之前，请阅读本节的疑难排解提示或访问网站 www.hp.com/support 的在线支持服务。

当从控制面板打印时，打印机无法打印无边界照片

解决方法 请确保设置打印作业时选择了正确的布局。当选择照片和纸张尺寸时，图像方框必须用桔色填充成实心，这表示无边界打印。

打印速度非常慢

解决方法 您可能遇到了下列某种情况：1) 您可能正在打印 PDF 文件或包含高分辨率图形或照片的项目，或者 2) 您可能选择了最高分辨率的打印输出。包含图形或照片的大型混合项目打印起来要比文本文档速度慢，尤其是在较高的分辨率下打印。

纸张未从主纸盒正确送入打印机

解决方法

- 纸盒中可能放入了太多的纸张。取出一些纸张并尝试再次打印。
 - 主纸盒可能未完全推入到位。将主纸盒完全推入到位。
 - 可能未正确调整纸张导轨。确保纸张宽度导轨和长度导板紧靠纸张的边缘，同时保持纸张平整。
 - 两张或多张纸张可能粘在一起。从主纸盒取出纸张，呈扇形展开纸叠以将纸张分开，然后重新放入纸张并尝试再次打印。
 - 如果纸张发生褶皱或弯曲，请尝试使用其他纸张。
 - 纸张可能太薄或太厚。为了获得最佳效果，请使用 HP 喷墨纸。有关详细信息，请参阅[选择正确的纸张](#)。
-

打印出的纸张从出纸盒中掉落

解决方法 在打印时要始终展开出纸盒延长板。

打印出的纸张发生褶皱或卷曲

 - 主纸盒或照片纸盒中可能缺纸。检查是否正确放入了纸张。有关放入纸张的说明，请参阅[放入纸张](#)。
 - 如果在打印时卡纸，请尝试以下操作：
 - 关闭打印机，然后拔下电源插头。清除打印机中任何堵塞纸路的纸张。取下后检修门。轻轻地从打印机中取出被卡住的纸张，然后重新装上后检修门。如果无法从打印机后面取出所有卡住的纸张，请尝试打开位于顶盖内的卡纸门，取出卡在打印机中间的纸张。有关清除卡纸的两个位置之图解，请参阅[纸张错误](#)。清除卡纸后，插上打印机电源线然后打开电源，尝试重新打印。
 - 如果要打印标签，请确保标签在通过打印机时没有从标签纸上脱落。
-

打印机输出空白页

解决方法

- 您可能已经开始打印，然后又取消了该打印作业。如果在开始打印前取消了打印作业，打印机可能已经放入了纸张并准备打印。下次打印时，打印机会在开始新的打印项目前先退出空白页。
 - 可能将具有大量数据的打印作业发送到了打印机。等待打印机维护打印头后，再继续打印。
-

打印机要求打印校准页

解决方法 打印机需要定期执行打印头校准以保持最佳打印质量。出现提示时，请放入 Letter 或 A4 尺寸的普通纸。丢弃或回收校准页。

 - 将每个墨盒逐个取出再装上，确保它们都安装正确。
 - 执行打印头自动清洁程序。有关详细信息，请参阅[保养与维护](#)。
 - 校准打印机。有关详细信息，请参阅[校准打印机](#)。
 - 如果使用上述所有解决方法后打印质量问题仍然存在，请与 HP 支持联系。

照片未正确打印

解决方法

- 您可能未正确放入照片纸。打印面朝下放入照片纸。
- 照片纸可能没有正确送入打印机。请尝试以下操作：
 - 检查是否出现卡纸。有关详细信息，请参阅[纸张错误](#)。
 - 将照片纸插入照片纸盒尽头。
 - 每次放入一张照片纸。

未打印在数码相机中标记要打印的照片

解决方法 有些数码相机可以让您在相机的内部存储器和存储卡上标记要打印的照片。如果您在内部存储器中标记了照片，然后又将照片从相机内部存储器转移到存储卡上，标记不会随之转移。请将照片从数码相机内部存储器转移到存储卡后，再标记要打印的照片。

解决方法 用相机将照片传输到计算机，然后从计算机打印。如果仍然缺失有些照片，它们可能已从存储卡中删除。

计算机和连接打印错误

在与 HP 支持联系之前，请阅读本节的疑难排解提示或访问网站 www.hp.com/support 的在线支持服务。

错误信息：打印机内存已满。作业已被取消。按“OK”。

解决方法 打印机在打印照片时遇到问题。请尝试以下操作：

- 要清空打印机内存，请关闭打印机，然后重新打开打印机。
 - 一次打印少量照片。
 - 将照片保存到计算机，并从计算机打印。
 - 使用存储卡读卡器将文件保存到计算机并从计算机打印。
-

错误信息：通信错误。检查计算机连接。按“OK”。 - 或 - 未接收到数据。检查计算机连接。按“OK”以继续。 - 或 - 计算机无响应。

解决方法 打印机无法与计算机进行正常通信。可能是打印机软件不工作或者电缆松脱。确保 USB 电缆牢固地连接在计算机上和打印机背面的 USB 端口上。如果电缆连接牢固，确认打印机软件已经安装。

错误信息：打印作业过程中断开了相机连接。

解决方法 将取消该打印作业。将 USB 电缆重新连接到相机和打印机，然后重新发送打印作业。

1 Welcome

Thank you for purchasing an HP Photosmart D7300 series printer! With this new photo printer you can print beautiful photos, save photos to a computer, and create fun and easy projects with or without a computer.

This guide primarily explains how to print without connecting a computer. To learn how to print from a computer, install the printer software and view the electronic Help. For an overview of using a computer and the printer together, see [Printing from a computer](#). For information about installing the software, see the *Quick Start* guide.

Home users can learn how to:

- Print borderless photos from the printer or from a computer
- Choose a photo layout
- Convert a color photo to black and white, or apply a color effect such as Sepia or Antique

The printer comes with the following documentation:

- **Quick Start Guide:** The *Quick Start Guide* explains how to set up the printer, install the printer software, and print your first photo.
- **User Guide:** The *User Guide* is the book you are reading. This guide describes the basic features of the printer, explains how to use the printer without connecting a computer, and contains hardware troubleshooting information.
- **Onscreen help:** The onscreen HP Photosmart printer help describes how to use the printer with a computer and contains software troubleshooting information.

Special features

New features and media make it easier than ever to produce high-quality photos:

- When you use the new HP Advanced Photo Paper (also called HP Photo Paper in some countries/regions), special sensors in the printer detect a mark on the back of the paper and automatically select the optimal print settings. For more information about this new paper, see [Choose the right paper](#).
- HP Real Life technologies make it easy for you to get better photos. Automatic red eye removal and adaptive lighting to enhance detail in shadows are just a few of the many technologies included. You can explore the many editing and enhancing options from both the control panel and from the printer software. To access these features from the control panel, see [Improving photo quality](#). To learn how to find them in the software, see [HP Real Life technologies features](#).

Accessing the onscreen HP Photosmart printer help

After you have installed the HP Photosmart printer software on a computer, you can view the onscreen HP Photosmart printer help:

- **Windows PC:** From the **Start** menu, select **Programs** (in Windows XP, select **All Programs**) > **HP** > **HP Photosmart D7300 series** > **Photosmart Help**.
- **Macintosh:** Select **Help** > **Mac Help** in the Finder, then select **Help Center** > **HP Photosmart Premier help** > **HP Photosmart printer help**.

Load paper

Learn how to choose the right paper for your print job and how to load it into the input tray for printing.

Choose the right paper

Use HP Advanced Photo Paper. It is especially designed to work with the inks in your printer to create beautiful photos. Other photo papers will produce inferior results.

For a list of available HP-designed photo paper, or to purchase supplies, go to:

- www.hpshopping.com (U.S.)
- www.hp.com/eur/hpoptions (Europe)
- www.hp.com/jp/supply_inkjet (Japan)
- www.hp.com/paper (Asia/Pacific)

The printer is set by default to print the best quality photos on HP Advanced Photo Paper. If you print on a different type of paper, be sure to change the paper type from the printer menu. See [Printer menu](#).

Load your paper

Paper loading tips:

- Load paper with the side to be printed facing down.
- You can print photos and documents on a wide variety of paper sizes, from 8 x 13 cm (3 x 5 inch) up to 22 x 61 cm (8.5 x 24 inch). The 10 x 15 cm (4 x 6 inch) photo paper is available with and without tabs.
- Before loading paper, pull the out main paper tray and slide out the paper-width and paper-length guides to make room for the paper. After loading paper, adjust the guides to fit close to the edges of the paper without bending the paper. When finished loading paper, push the main tray back in all the way.
- Load only one type and size of paper at a time in the same tray.
- After loading paper, extend the output tray extension to catch your printed pages.

Use the directions in the following table to load the most commonly used paper sizes into the printer.

Insert ink cartridges

The first time you set up and use your HP Photosmart printer, make sure to install the ink cartridges that were shipped with your printer. The ink in these ink cartridges is specially formulated to mix with the ink in the print head assembly.

Purchasing replacement ink cartridges

When purchasing replacement cartridges, refer to the cartridge numbers that appear on the back cover of this guide. These cartridge numbers may vary by country/region.

Note If you have already used the printer several times and you have installed the HP Photosmart printer software, you can also find the cartridge numbers in the printer software. **Windows users:** Right-click the HP Digital Imaging Monitor icon in the Windows taskbar, and select **Launch/Show HP Solution Center**. Select **Settings**, then **Print Settings**, and then **Printer Toolbox**. Click the **Estimated Ink Levels** tab, and then click **Ink Cartridge Information**. To order ink cartridges, click **Shop Online**. **Mac users:** Click **HP Photosmart Premier** in the Dock. Choose **Maintain Printer** from the **Settings** pop-up menu. Click **Launch Utility**, and then choose **Supplies Status** from the pop-up menu.

Ink cartridge tips

HP Vivera Inks deliver true-to-life photo quality and exceptional fade resistance resulting in vivid colors that last for generations! HP Vivera Inks are specially-formulated and scientifically tested for quality, purity and fade resistance.

For best print quality, HP recommends that you install all retail ink cartridges before the install-by date stamped on the box.

For optimum printing results, HP recommends using only genuine HP ink cartridges. Genuine HP ink cartridges are designed and tested with HP printers to help you easily produce great results, time after time.

Note HP cannot guarantee the quality or reliability of non-HP ink. Printer service or repairs required as a result of printer failure or damage attributable to the use of non-HP ink will not be covered under warranty.

---	--

Caution To prevent ink loss or spillage: leave the ink cartridges installed while transporting the printer, and avoid leaving used ink cartridge(s) out of the printer for extended lengths of time.

Inserting or replacing the ink cartridges

1. Make sure the power is on, then lift the top cover. Make sure all packing material has been removed from inside the printer.

2. Squeeze the gray tab below an ink cartridge slot to release the gray latch inside the printer, then lift the latch.

The ink cartridge areas are color-coded for easy reference. Lift the latch below the appropriate color to insert or replace a cartridge. From left to right, the ink cartridges are black, yellow, light cyan, cyan, light magenta, and magenta.

|---|---|
| 1 | Ink cartridge latch for the black ink cartridge |
| 2 | Ink cartridge area for the color ink cartridges |

3. If you are replacing a cartridge, remove the old cartridge by pulling it toward you out of its slot.

Recycle the old cartridge. The HP Inkjet Supplies Recycling Program is available in many countries/regions and lets you recycle used ink cartridges free of charge. For more information, go to www.hp.com/hpinfo/globalcitizenship/environment/recycle/inkjet.html.

4. Remove the new ink cartridge from its packaging, and while holding it by the handle, slide the ink cartridge into the empty slot.

Make sure you insert the ink cartridge into the slot that has the same shaped icon and color as the new cartridge. The copper-colored contacts should be facing the printer as the ink cartridge is inserted.

Note The first time you set up and use the printer, make sure to install the ink cartridges that were shipped with your printer. The ink in these ink cartridges is specially formulated to mix with the ink in the print head assembly.

5. Press down on the gray latch until it clicks into place.

6. Repeat steps 2 through 5 for each ink cartridge you are replacing. You must install all six cartridges. The printer will not work if an ink cartridge is missing.
7. Close the top cover. The touch screen displays six ink drop icons showing the approximate ink level for each cartridge when low ink levels are detected.

Note If you are using non-HP ink, a question mark appears instead of the ink drop in the icon for that cartridge. The printer cannot detect the amount of ink remaining in ink cartridges that contain non-HP ink.

Insert memory cards

After you have taken pictures with a digital camera, you can remove the memory card from the camera and insert it into the printer to view and print your photos. The printer can read the following types of memory cards: CompactFlash™, Memory Sticks, Microdrive™, MultiMediaCard™, Secure Digital™, and xD-Picture Card™.

Caution Using any other type of memory card may damage the memory card and the printer.

To learn about other ways of transferring photos from a digital camera to the printer, see [Connecting to other devices](#).

Supported file formats

The printer can recognize and print the following file formats directly from a memory card: JPEG, uncompressed TIFF, Motion JPEG AVI, Motion-JPEG QuickTime, and MPEG-1. If your digital camera saves photos and video clips in other file formats, save the files to your computer and print them using a software program. For more information, see the electronic Help.

Inserting a memory card

4	Secure Digital, MultiMediaCard (MMC)

Memory card types

Find your memory card in the following table and use the instructions to insert the card into the printer.

Guidelines:

- Insert only one memory card at a time.
- Gently push the memory card into the printer until it stops. The memory card slot allows for only a portion of the card to insert into the printer; do not try to force the memory card all the way into the printer.
- When the memory card is inserted correctly, the memory card light flashes and then remains solid green.

Caution 1 Inserting the memory card any other way may damage the card and the printer.

Caution 2 Do not pull out a memory card while the memory card light is flashing green. For more information, see [Removing a memory card](#).

Removing a memory card

Wait until the Memory Card light stops flashing, then gently pull the memory card to remove it from the printer.

Caution Do not pull out a memory card while the Memory Card light is flashing. A flashing light means that the printer is accessing the memory card. Removing a memory card while it is being accessed may damage the printer and the memory card or corrupt the information on the memory card.

3 Printing photos without a computer

The HP Photosmart D7300 series printer lets you select, enhance, and print photos without even turning on the computer. Once you've set up the printer using the instructions in the *Quick Start* booklet, you can insert a memory card in the printer and print your photos using the buttons on the printer control panel.

You can also print photos directly from a digital camera. For more information, see [Print photos from a digital camera](#).

Printing photos

You can print photos without a computer in several different ways:

- Insert a memory card with photos on it into one of the memory card slots on the printer
- Connect a PictBridge digital camera to the camera port on the front of the printer
- Install the optional HP Bluetooth® wireless printer adapter and print from a digital camera with Bluetooth wireless technology

Saving photos to a computer

You can save photos to a computer from any memory card inserted in the printer, if you set up a USB connection between the two devices.

If you are using a Windows computer

Use either of these methods to save photos to your computer.

- Insert a memory card into the printer. The HP Photosmart Premier transfer software (HP Transfer and Quick Print) opens on your computer screen and allows you to designate a location on the computer to save images. For more information, see the onscreen HP Photosmart printer software help.
- Insert a memory card into the printer. The memory card appears in Windows Explorer as a removable drive. Open the removable drive and drag photos from the card to any location on your computer.

If you are using a Macintosh

1. Insert a memory card into the printer.
2. Wait for iPhoto to start and read the contents of the memory card.
3. Click **Import** to save the photos on the card to your Macintosh.

Note The memory card also appears on the desktop as a drive icon. You can open it and drag photos from the card to any location on your Macintosh.

Connecting through HP Photosmart Share

Use HP Photosmart Share to share photos with friends and relatives using e-mail, online albums, or an online photo finishing service. Your printer must be connected through a USB cable to a computer with Internet access and have all the HP software installed. If you try to use Share and do not have all the required software installed or configured, a message prompts you through the required steps.

Use Share (USB) to send photos (Windows users):

1. Insert a memory card and select some photos.
2. Touch **Share** on the printer screen.
3. Follow the instructions on your computer to share the selected photos with others.

Use Share (USB) to send photos (Mac users)

1. Open **HP Photosmart Premier** and select photos to share. For information about HP Photosmart Premier, see [HP Photosmart Premier](#).
2. Click the **Applications** tab in **HP Photosmart Premier**, then double-click **HP Photosmart Share**.
3. Follow the instructions on your computer to share the selected photos with others.

See the onscreen software help for more information about using HP Photosmart Share

5 Printing from a computer

6 Care and maintenance

The printer requires very little maintenance. Follow the guidelines in this section to extend the life span of the printer and printing supplies, and to ensure that the photos you print are always of the highest quality.

- [Clean and maintain the printer](#)
- [Update the software](#)
- [Store and transport the printer and ink cartridges](#)
- [Maintain the quality of photo paper](#)

Clean and maintain the printer

Keep the printer and print cartridge clean and well maintained using the simple procedures in this section.

Clean the outside of the printer

1. Turn off the printer, then disconnect the power cord from the back of the printer.
2. Wipe the outside of the printer with a soft cloth that has been lightly moistened with water.

Caution Do not use any type of cleaning solution. Household cleaners and detergents may damage the printer finish. Do not clean the interior of the printer. Keep all fluids away from the interior. Do not lubricate the metal rod on which the print head slides. Noise is normal when the print head moves back and forth.

Aligning the printer

Use the following procedure when the self test report shows streaking or white lines through any of the blocks of color.

If you still have print quality problems after aligning the printer, try cleaning the print head using the procedure described in [Care and maintenance](#). If print quality problems persist after aligning and cleaning, contact HP Support.

1. Load letter or A4 unused plain white paper into the Main tray.
2. Touch **Settings**.
3. Touch **Tools**, then scroll and find Align printer.
4. Touch **Align printer**.
The printer aligns the print head, prints an alignment page, and calibrates the printer. Recycle or discard the alignment page.
5. Touch **OK**.

Print a sample page

You can print a sample page to test the printer photo printing quality and to make sure the paper is loaded correctly.

1. Load paper in the Main tray. Use plain paper to conserve photo paper.
2. Touch **Settings**.
3. Touch **Tools**, then touch **Print sample page**.

Automatically clean the printhead

If you notice white lines or streaks on the photos you print, or in the color blocks of the self test report, use this procedure to clean the print head. Do not clean the print head unnecessarily, as this wastes ink and shortens the life of the ink nozzles on the print head.

1. Load paper in the Main tray. Use plain paper to conserve photo paper.
2. Touch **Settings**.
3. Touch **Tools**, then scroll to Clean printhead.
4. Touch **Clean printhead**.

If print quality still seems poor after you clean the print head, try aligning the printer using the procedure described in [Aligning the printer](#). If print quality problems persist after cleaning and aligning, contact HP support.

Manually clean the ink cartridge contacts

Clean the copper-colored ink cartridge contacts if a message appears on the printer screen that says a cartridge is missing or damaged.

Before cleaning the ink cartridge contacts, remove the ink cartridge and verify that nothing is covering the ink cartridge contacts or the ink cartridge slot, then reinstall the ink cartridge. If you continue to get a message that says a cartridge is missing or damaged, clean the ink cartridge contacts. If you still get this message after cleaning the contacts, you will need a replacement ink cartridge. Remove the affected ink cartridge and look at the end-of-warranty date on the bottom, in YYYY/MMM/DD format. If it is before the end-of-warranty date, contact HP support to obtain a replacement ink cartridge.

To clean the ink cartridge contacts:

1. Gather the following items to clean the contacts:
 - Distilled, filtered, or bottled water (tap water may contain contaminants that can damage the ink cartridge)

Caution Do not use platen cleaners or alcohol to clean the ink cartridge contacts. These can damage the ink cartridge or the HP Photosmart printer printer.

- Dry foam rubber swabs, lint-free cloth, or any soft material that will not come apart or leave fibers.
2. Open the top cover of the printer.
 3. Squeeze the gray tab below an ink cartridge slot to release the gray latch inside the printer, then lift the latch.

Caution Do not remove multiple ink cartridges at the same time. Remove and clean each ink cartridge one at a time. Do not leave the ink cartridge outside the printer for more than 30 minutes.

4. Lightly moisten a swab or cloth with water and squeeze out any excess water.
5. Hold the ink cartridge by its handle and gently wipe only the copper-colored contacts with the swab or cloth.

1 Gently wipe only the copper-colored contacts

6. Place the ink cartridge back into the empty slot and press down on the gray latch until it clicks into place.
7. Repeat if necessary for the other ink cartridges.
8. Close the top cover.

Caution The ink supply may become pressurized. Inserting a foreign object into the ink supply could result in ink being expelled and coming in contact with persons or property.

Print a self test report

If you are experiencing problems with printing, print a self test report. This two-page report—labelled the Extended Self Test Diagnostic Page—can help you diagnose printing problems and can provide valuable information if you need to call HP Support. You can also use this report to check on the approximate percentage of ink remaining in the ink cartridges.

1. Touch **Settings**.
2. Touch **Tools**, then scroll to Print test page.
3. Touch **Print test page**.

The HP Photosmart printer prints a two-page self test report that contains the following information:

- **Product information:** Includes the model number, serial number, and other product information.
- **Revision information:** Includes the firmware version number and indicates whether or not you have an HP two-sided printing accessory (duplexer) installed.
- **Ink delivery system information:** Displays the approximate ink level of each installed ink cartridge, the status of each ink cartridge, the date each cartridge was installed, and the expiration date for each cartridge.
- **Print head assembly information:** Contains information that may be used for diagnostic purposes if you need to call HP Support.
- **Print head parameters:** Contains information that may be used for diagnostic purposes if you need to call HP Support.
- **Print quality pattern:** Displays six color blocks, representing each of the six installed cartridges. When streaks appear through the color blocks, or there are missing color blocks, clean the print head using the procedure described in [Care and maintenance](#). If the color blocks still show print quality problems after cleaning the print head, align the printer using the procedure described in [Aligning the printer](#). If the color blocks continue to show print quality problems after cleaning and aligning, contact HP support.
- **History log:** Contains information that may be used for diagnostic purposes if you need to call HP Support.

Self test report

Update the software

Download the latest printer software update periodically to ensure you have the latest features and improvements. You can download printer software updates by going to www.hp.com/support or by using HP Software Update.

Note The printer software update that you download from the HP Web site does not update the HP Photosmart Premier software.

Downloading the software (Windows)

Note Make sure you are connected to the Internet before you use HP Software Update.

1. From the Windows **Start** menu, select **Programs** (in Windows XP, select **All Programs**) > **Hewlett-Packard** > **HP Software Update**. The HP Software Update window opens.
2. Click **Check Now**. HP Software Update searches the HP Web site for printer software updates. If the computer does not have the most recent version of the printer software installed, a software update appears in the HP Software Update window.

Note If the computer has the most recent version of the printer software installed, the following message appears in the HP Software Update window: “No updates are available for your system at this time”.

3. If a software update is available, click the checkbox next to the software update to select it.
4. Click **Install**.
5. Follow the onscreen instructions to complete the installation.

Downloading the software (Mac)

Note Make sure you are connected to the Internet before you use HP Photosmart Updater.

1. On your Mac in the Finder, choose **Go > Applications**.
2. Choose **Hewlett-Packard > Photosmart > HP Photosmart Updater**.
3. Follow the onscreen instructions to check for software updates.
If you are behind a firewall, you need to enter the proxy server information in the updater.

Store and transport the printer and ink cartridges

Protect the printer and ink cartridges by storing them properly when you are not using them.

Store and transport the printer

The printer is built to withstand long or short periods of inactivity. Store the printer indoors out of direct sunlight in a place without temperature extremes.

Caution To prevent ink loss or spillage: do not transport or store the printer on its side, and leave the ink cartridges installed while storing and transporting the printer.

Store and transport the ink cartridges

When you transport or store the printer, always leave the active ink cartridge inside the printer to prevent the ink from drying out.

Caution 1 To prevent ink loss or spillage: leave the ink cartridges installed while storing and transporting the printer, and avoid leaving used ink cartridge(s) out of the printer for extended lengths of time.

Caution 2 Make sure the printer completes its power-down cycle before you unplug the power cord. This allows the printer to store the print head properly.

Follow this tip to help maintain your HP ink cartridges and ensure consistent print quality: Keep all unused ink cartridges in their original sealed packages until they are needed. Store ink cartridges at room temperature (15-35 °C or 59-95 °F).

Maintain the quality of photo paper

For best results with photo paper, follow the guidelines in this section.

To store photo paper

- Store the photo paper in its original packaging or in a resealable plastic bag.
- Store the packaged photo paper on a flat, cool, and dry surface.
- Return unused photo paper to the plastic bag. Paper left in the printer or exposed to the elements may curl.

To handle photo paper

- Always hold photo paper by the edges to avoid fingerprints.
- If the photo paper has curled edges, place it in its plastic storage bag and gently bend it in the opposite direction of the curl until the paper lies flat.

7 Troubleshooting

The HP Photosmart printer is designed to be reliable and easy to use. This chapter answers frequently asked questions about using the printer and printing without a computer. It contains information about the following topics:

- [Printer hardware problems](#)
- [Printing problems](#)
- [Error messages](#)

For additional troubleshooting information, see:

- **Software installation troubleshooting:** The *Quick Start* guide that came with the printer.
- **Printer software and printing from a computer troubleshooting:** The onscreen HP Photosmart Printer Help. For information about viewing the onscreen HP Photosmart Printer Help, see [Welcome](#). Mac users should also check for troubleshooting and readme options on the **HP Photosmart Menu** in the Dock.

Printer hardware problems

Before contacting HP support, read this section for troubleshooting tips or go to the online support services at www.hp.com/support.

Note If you want to connect the printer to a computer with a USB cable, HP recommends using a 2.0 high-speed compliant cable 3 meters (10 feet) or less in length.

The Print light is flashing blue but the printer is not printing

Solution The printer is busy processing information; wait for it to finish.

The Attention light is on

Solution

- Check the printer screen for instructions. If a digital camera is connected to the printer, check the camera screen for instructions. If the printer is connected to a computer, check the computer monitor for instructions.
- Turn off the printer, then unplug its power cord. Wait about 10 seconds, then plug it in again. Turn on the printer.

If the Attention light stays on after trying the above solutions, go to www.hp.com/support, or contact HP Support for help.

The printer does not find the photos I stored on my memory card

Solution The memory card may contain file types the printer cannot read directly from the card.

- Save the photos to a computer, then print them from the computer. For more information, see the onscreen HP Photosmart Printer Help and the documentation that came with the camera.
- The next time you take photos, set the digital camera to save them in a file format the printer can read directly from the memory card. For a list of supported file formats, see [Printer specifications](#). For instructions on setting the digital camera to save photos in specific file formats, see the documentation that came with the camera.

The memory card may need to be reformatted if the problem persists.

The printer is plugged in but will not turn on

Solution

- The printer may have drawn too much power. Unplug the printer power cord. Wait about 10 seconds, then plug the cord back in. Turn on the printer.
 - The printer may be plugged into a power strip that is turned off. Turn on the power strip, then turn on the printer.
 - The power cord could be defective. Make sure the green light on the power cord is lit.
-

The printer makes noises when I turn it on, or starts making noises after sitting unused for a while

Solution The printer may make noises after long periods of inactivity (approximately 2 weeks) or when its power supply has been interrupted and then restored. This is normal operation. The printer is performing an automatic maintenance procedure to ensure it produces the best quality output.

All the lights are flashing on the printer

Solution The printer has encountered a hardware error and may need to be serviced. Unplug the power cord to the printer. Wait about 10 seconds, and then plug it in again. Turn on the printer. If the lights are still flashing, please go to www.hp.com/support, or contact HP Support for help.

Printing problems

Before contacting HP support, read this section for troubleshooting tips or go to the online support services at www.hp.com/support.

The printer does not print borderless photos when I print from the control panel

Solution Make sure the correct layout is selected when setting up the print job. When selecting photo and paper size, the image rectangle must be solidly filled with orange to indicate a borderless print.

Printing is very slow

Solution You may have one of the following situations: 1) you may be printing a PDF or a project containing high-resolution graphics or photos or 2) you may have selected the highest resolution for your printout. Large, complex projects containing graphics or photos print slower than text documents, especially at higher resolutions.

Paper does not feed into the printer correctly from the Main tray

Solution

- There may be too much paper loaded in the tray. Remove some paper and try printing again.
 - The Main tray may not be pushed in all the way. Push the Main tray all the way in.
 - The paper guides may not be adjusted correctly. Make sure the paper-width and paper-length guides fit close to the edges of the paper without bending the paper.
 - Two or more pieces of paper may be sticking together. Remove the paper from the Main tray, fan the edges of the stack to separate the sheets of paper, then reload the paper and try printing again.
 - If the paper is wrinkled or bent, try using different paper.
 - The paper may be too thin or too thick. Use HP inkjet paper for best results. For more information, see [Choose the right paper](#).
-

Printed pages are dropping off of the Output tray

Solution Always extend the Output tray extension when you print.

The printout is rippled or curled

Solution The project you are printing uses a larger amount of ink than normal. Print the project from a computer, and use the printer software to lower the ink saturation level. See the onscreen HP Photosmart Printer Help for more information.

The document printed at an angle or is off-center

Solution

- The paper may not be loaded correctly. Reload the paper, making sure it is correctly oriented in the Main tray and that the paper-width and paper-length

guides fit close to the edges of the paper. For paper-loading instructions, see [Load your paper](#).

- If you are using a two-sided printing accessory, try removing it, replacing the rear access door, and printing again.
 - The printer may need to be aligned. For more information, see [Aligning the printer](#).
-

Colors are not printing satisfactorily

Solution

- One of the color ink cartridges may be very low on ink, resulting in another color being substituted during printing. Check the estimated ink levels by touching the ink icons on the home screen. If an ink cartridge is low on ink, replace it. For more information, see [Insert ink cartridges](#).
 - The printer may need to be aligned. For more information, see [Aligning the printer](#).
 - The print head may need to be cleaned. For more information, see [Care and maintenance](#).
-

No page came out of the printer or the paper jammed while printing

Solution

- The printer may need attention. Read the printer screen for instructions.
 - The power may be off or there may be a loose connection. Make sure the power is on and the power cord is securely connected.
 - You may not have any paper in the Main tray or Photo tray. Check that the paper is loaded correctly. For paper-loading instructions, see [Load your paper](#).
 - If the paper jammed while printing, try the following:
 - Turn off the printer, then unplug it from the power source. Clear the printer of any paper obstructing the paper path. Remove the rear access door. Gently remove the jammed paper from the printer, then replace the rear access door. If all jammed paper cannot be removed from the rear area of the printer, try removing paper jammed in the middle of the printer by opening the paper jam door located inside the top cover. For illustrations of the two places to clear a paper jam, see [Paper errors](#). When you are finished clearing the paper jam, plug the printer back in, turn it on, and try printing again.
 - If you were printing labels, make sure a label did not become unglued from the label sheet while going through the printer.
-

A blank page came out of the printer

Solution

- You may have begun printing and then cancelled the print job.

If you cancelled the print job before printing started, the printer may have already loaded paper in preparation for printing. The next time you print, the printer ejects the blank page before starting the new printing project.

- A print job with a large amount of data may have been sent to the printer. Wait for the printer to service the print head before it continues printing.
-

The printer asked me to print an alignment page

Solution Periodically, the printer needs to perform a print head alignment to maintain optimal print quality.

When prompted, load plain letter or A4 paper. Discard or recycle the alignment page.

The photo did not print using the default print settings

Solution You may have changed the print settings for the selected photo. Print settings you apply to an individual photo override the default print settings. Discard all print settings that have been applied to an individual photo by deselecting the photo. For more information, see [Settings](#).

The printer ejects the paper when preparing to print

Solution Direct sunlight could be interfering with the operation of the automatic paper sensor. Move the printer out of direct sunlight.

Print quality is poor

Solution

- One of the ink cartridges may be very low on ink, resulting in another color being substituted during printing. Check the estimated ink levels by touching the ink icons on the home screen. If an ink cartridge is low on ink, replace it. For more information, see [Insert ink cartridges](#).
- Use photo paper designed for the printer. For best results, use the papers recommended in [Choose the right paper](#).
- You may be printing on the wrong side of the paper. Make sure the paper is loaded with the side to be printed facing down.
- You may have selected a low-resolution setting on the digital camera. Reduce the size of the image and try printing again. For better results in the future, set the digital camera to a higher photo resolution.
- There may be a problem with an ink cartridge or with the print head. Try the following:
 - Remove and then reinsert each ink cartridge, one at a time, to make sure they are all properly seated.
 - Run the automatic print head cleaning procedure. For more information, see [Care and maintenance](#).

- Align the printer. For more information, see [Aligning the printer](#).
 - If print quality problems persist after you have tried all of the above solutions, contact HP Support.
-

Photos are not printing correctly

Solution

- You may have loaded the photo paper incorrectly. Load the photo paper with the side to be printed facing down.
 - The photo paper may not have fed into the printer correctly. Try the following:
 - Check for a paper jam. For more information, see [Paper errors](#).
 - Insert the photo paper as far as it will go into the Photo tray.
 - Load one sheet of photo paper at a time.
-

The photos I marked for printing in the digital camera do not print

Solution Some digital cameras let you mark photos for printing in both the camera's internal memory and on the memory card. If you mark photos in the internal memory, and then move photos from the camera's internal memory to the memory card, the marks do not transfer. Mark photos for printing after you transfer them from the digital camera's internal memory to the memory card.

Ink cartridge errors

Before contacting HP support, read this section for troubleshooting tips or go to the online support services at www.hp.com/support.

Error message: Wrong ink cartridge(s) installed

Solution The first time you set up and use your HP Photosmart printer, make sure to install the ink cartridges that were shipped with your printer. The ink in these ink cartridges is specially formulated to mix with the ink in the print head assembly.

To resolve this error, replace the affected ink cartridge(s) with the ink cartridges that were shipped with your HP Photosmart printer.

For more information on replacing ink cartridges, see [Insert ink cartridges](#).

Error message: Incorrect ink cartridge

Solution The indicated ink cartridge(s) cannot be used after the device has undergone initialization. Replace the ink cartridge(s) with the appropriate ink cartridges for your HP Photosmart printer. The cartridge numbers you can use with this printer appear on the back cover of this printed guide.

For more information on replacing ink cartridges, see [Insert ink cartridges](#).

Error message: Replace cartridges soon

Solution The indicated ink cartridge(s) are low on ink.

You might be able to continue printing for a short period of time with ink remaining in the print head assembly. Replace the indicated ink cartridge(s) or touch **OK** to continue.

For more information on replacing ink cartridges, see [Insert ink cartridges](#).

Error message: Ink cartridge(s) are empty

Solution Replace the indicated ink cartridge(s) with new ink cartridge(s).

- If the black ink cartridge is empty, you can continue printing with the other color ink cartridges by selecting that option in the displayed printer screen prompts.
- If a color ink cartridge is empty, you can continue printing with the black ink cartridge by selecting that option in the displayed printer screen prompts.

Depending on the status of your print job, you can touch **OK** to continue. If the HP Photosmart printer is in the middle of a print job, press **Cancel** and restart your print job.

Note Text and photo quality will differ from those printed when using all ink cartridges. If the empty ink cartridge(s) are not replaced soon, all printing will stop.

For more information on replacing ink cartridges, see [Insert ink cartridges](#).

Error message: Cannot print

Solution The indicated ink cartridge(s) are out of ink.

Replace the indicated ink cartridge(s) immediately so that you can resume printing.

The HP Photosmart printer cannot continue printing until the indicated ink cartridge(s) are replaced. All printing will stop.

For more information on replacing ink cartridges, see [Insert ink cartridges](#).

Error message: Ink cartridge problem

Solution The indicated ink cartridge(s) are missing or damaged.

Replace the indicated ink cartridge(s) immediately so that you can resume printing.

If there are no ink cartridges missing from the HP Photosmart printer, the ink cartridge contacts might need to be cleaned.

For more information on replacing ink cartridges, see [Insert ink cartridges](#). For more information on cleaning the ink cartridge contacts, see [Care and maintenance](#).

If there are no ink cartridges missing from the HP Photosmart printer, and you still receive this message after cleaning the ink cartridge contacts, you will need a replacement ink cartridge. Remove the affected ink cartridge and look at the end-of-warranty date on the bottom, in YYYY/MMM/DD format. If it is before the end-of-warranty date, contact HP Support to obtain a replacement ink cartridge.

Error message: Ink expiration near

Solution If the current date is near the expiration date, consider replacing the ink cartridge(s) to achieve best print quality. You can continue printing by touching **OK**. HP cannot guarantee the quality or reliability of expired ink.

For more information on replacing ink cartridges, see [Insert ink cartridges](#).

Error message: Ink cartridge(s) are expired

Solution If the ink cartridge(s) are expired, replace the ink cartridge(s) to achieve best print quality. You can continue printing by touching **OK**. HP cannot guarantee the quality or reliability of expired ink.

For more information on replacing ink cartridges, see [Insert ink cartridges](#).

Note Each ink cartridge has an expiration date. When you receive an ink expiration message, remove and replace the expired ink cartridge, and then close the message. You can also continue printing without replacing the ink cartridge, by selecting OK on the ink expiration message. HP recommends replacing the expired ink cartridges. HP cannot guarantee the quality or reliability of expired ink cartridges.

Error message: Non-HP ink

Solution Replace the indicated ink cartridge(s) or touch **OK** to continue.

HP recommends that you use genuine HP ink cartridges. Genuine HP ink cartridges are designed and tested with HP printers to help you easily produce great results, time after time.

Note HP cannot guarantee the quality or reliability of non-HP ink. Printer service or repairs required as a result of printer failure or damage attributable to the use of non-HP ink will not be covered under warranty.

Error message: Scheduled maintenance

Solution You must align the printer to ensure excellent print quality. With letter or A4 unused plain white paper in the Main tray, touch **OK**. The HP Photosmart printer aligns the print head, calibrates the printer, and then prints a test page. Recycle or discard the test page.

Error message: Calibration error

Solution

- If you have color or photo paper loaded in the Main tray when you align the printer, the alignment might fail. Load unused plain white letter or A4 paper into

the Main tray, and then try the alignment again. If the alignment fails again, you might have a defective sensor or ink cartridge; contact HP Support.

- The ink cartridge or sensor is defective. Contact HP support.

Solution Remove any objects that are blocking the print head assembly.

To clear the print head assembly

1. Open the top cover, then open the paper jam door.

1. Open the paper jam door to clear the print head assembly.
2. Remove any objects that are blocking the print head assembly, including paper and any packing materials.
3. Turn the printer off, then turn it on again.
4. Close the paper jam door and the top cover.

Error message: Ink System Failure

Solution The print head assembly or the ink delivery system has failed and the HP Photosmart printer can no longer print.

Turn off the printer, then unplug its power cord. Wait about 10 seconds, then plug it in again. If this does not clear the error message, please contact HP Support.

Memory card errors

Before contacting HP support, read this section for troubleshooting tips or go to the online support services at www.hp.com/support.

Error message: Photo is missing. —OR— Some photos are missing.

Solution The printer cannot read the file on the memory card, or one or more files specified for the job are missing from the memory card. Try saving the photos to the

computer using the digital camera rather than the memory card. If a photo is missing, you may have accidentally deleted the photo from the card.

Error message: Card access error. Job was cancelled. Press OK.—OR— File directory structure is corrupted. —OR— Card may be damaged. Job was cancelled. Touch OK.

Solution The printer cannot read the data on the memory card and cannot complete any current print jobs. The data may be corrupted or there may be a physical problem with the memory card.

- Save the files to the computer and access them from there.
 - If this does not work, use a new memory card or reformat the memory card using the digital camera. Any photos on the memory card will be lost.
 - If this does not work, the photo files may be damaged or unreadable. Before you contact HP Support, try another memory card to determine if it is the printer or the memory card that is failing.
-

Error message: Cannot print photos.

Solution More than 10 photos specified for a print job may be corrupted, missing, or are an unsupported file type. For information about supported file types, see [Printer specifications](#).

- Save the photos to the computer using the digital camera rather than the memory card.
 - Save the files to the computer and print from the computer.
 - Print a photo index and reselect photos. For more information, see [Printing photos](#).
-

Error message: Card is password protected. Cannot access card.

Solution The printer cannot read the memory card because the card is password-protected. Follow these steps:

1. Remove the memory card from the printer.
 2. Insert the memory card in the device you originally used to store the password on the memory card.
 3. Remove the password from the memory card.
 4. Remove the memory card and reinsert it in the printer memory card slot.
 5. Try printing again.
-

Error message: Card is locked. Cannot access card.

Solution Make sure the lock switch on the card is in the unlocked position.

Error message: Card is not fully inserted. Push card in a little more.

Solution The printer can detect the memory card but cannot read it. Push the memory card gently into the memory card slot until it stops. For more information, see [Insert memory cards](#).

Error message: Use only one (1) card at a time. Please remove a memory card. —OR— Use only one (1) device at a time. Please remove/disconnect a device.

Solution The printer has two or more different types of memory cards inserted simultaneously, or a memory card is inserted and a digital camera is connected to the camera port at the same time. Remove memory cards or disconnect the camera until only one card is in the printer or only a camera is connected.

Error message: Card was removed. Job was cancelled. Touch OK.

Solution You removed a memory card from the printer while it was busy printing a file from the card. Follow these steps:

1. Touch **OK**.
2. Reinsert the memory card and print the selected photos again. The memory card must remain inserted until the print job is complete.

To avoid damage to memory cards in the future, do not remove them from the printer memory card slot while they are being accessed. For more information, see [Removing a memory card](#).

Error message: Camera selections (DPOF) file has error.

Solution The printer is unable to read a DPOF file due to corrupted data or an error on the memory card. Use the printer control panel to reselect the photos. For more information, see [Print photos from a memory card](#).

Error message: Some camera-selected photos are not on card.

Solution Some camera-selected photos are missing or have been deleted. Try the following:

- Confirm that you did not accidentally delete the photo from the memory card.
 - Reselect the photos again using the digital camera.
 - Print a new photo index to see the index numbers associated with each photo. For more information, see [Printing photos](#).
-

Error message: Cannot display this photo. —OR— Cannot display all photos. —OR— Photos are corrupted.

Solution The memory card contains image formats the printer does not support, or the files are corrupted. For a list of supported image formats, see [Printer specifications](#). Access photos using the computer. For information about accessing photos through the computer, see [Printing from a computer](#).

Error message: Unsupported card type.

Solution Use your camera to transfer the photos to your computer, and then print from your computer.

Error message: Some photo numbers are not on card.

Solution Use your camera to transfer the photos to your computer, and then print from your computer. If some photos are still missing, they may have been deleted from the memory card.

Computer and connectivity printing errors

Before contacting HP Support, read this section for troubleshooting tips or go to the online support services at www.hp.com/support.

-

Error message: Communication error. Check computer connection. Press OK. —OR— Data was not received. Check computer connection. Press OK to continue. —OR— No response from computer.

Solution The printer cannot communicate properly with the computer. The printer software may not be working or a cable may be loose. Make sure the USB cable is securely attached to both the computer and to the USB port on the back of the printer. If the cable is secure, verify that the printer software is installed.

Error message: Camera disconnected during print job.

Solution The print job will be cancelled. Reattach the USB cable to the camera and printer and resend the print job.
