C

Effective Date: August 2013 **Valid Through:** August 2016

Product: Plumbing Fixture Fittings **File No.:** 8737

Issued To: Fajing Heart Cutridge Co., Ltd.
30, 28 Heishan Dong Road,
Shuihou Town,
Fajing City, GUANGDONG
China

Identification: Plumbing supply fittings complying with this Standard shall be marked with the manufacturer's recognized name, trademark, or other mark or, in the case of private labeling, the name, trademark or other mark of the customer for whom the fitting was manufactured. The marking shall be accomplished by use of a permanent mark or by placing a permanent label on the product. Markings on plumbing supply fittings shall be visible after installation.

Single-handle, single-control, and automatic compensating mixing bath and shower valves shall have identifiable temperature control settings in which the settings are indicated by words ("cold", "warm", "hot", etc.), by numbers, or graphically.

Packages shall be marked with the manufacturer's name, trademark, or other mark as well as the model number or, in the case of private labeling, the name, trademark, or mark of the customer for whom the fitting was manufactured as well as the model number.

Installation tools and accessories

Check accessories

Standard List of Accessories:

When you open the product packaging ,please check whether the objects in it are consistent with the main body and accessories you purchased .If there is any inconsistency ,please contact our company or our distributor.

- Note: 1.Accessories are subject to change without prior notice if the change does not affect usage;
 2.The appearance of the product is subject to the physical objects you receive ,and the schematic diagram is only for reference.

INSTALL THE SHOWER

This product has been inspected and debugged by the factory to the best condition. Please do not disassemble and assemble it yourself.

Before installing the faucet, please be sure to remove sundries and sludge from the water pipe to prevent sundries from blocking the faucet.

1. Dig pipe grooves for pre-burying pipes.

2. Install the main body, water inlet and outlet pipes.

3. Stick tiles. Please note that the outlet should be slightly lower than the surface of the tiles.

4. Stick the tiles, remove the protecting cover, install the cover plate and diverter.

5. Install shower arm and rain shower head. (Wrap the PTFE tape around the thread)

6. Install hand shower bracket. (Wrap the PTFE tape around the thread) (The outlet should be flush with the tile's surface)

CLEANING CARE

In order to keep the appearance of faucet clean, bright and good performance, please take care of the faucet as follows;

1. Rinse with water only and dry with soft cotton cloth;
2. Use mild liquid and colorless glass cleaner to remove surface dirt and scale film, or use polish without abrasive effect;
3. Do not use abrasive detergent, polish, emery cloth, paper towel or scraper, etc.;
4. Do not use acid cleaner, or cleaner and soap with insoluble gran etc.;
5. In the process of use, mud may accumulate in the bubbler and make the water flow show, The bubbler can be unscrewed, rinsed with water, and then installed back in place.

Please feel free to contact us if you have any questions. We will help to solve the issue together with you.
