SYLVANIA SMART⁺ Apple HomeKit Guide Setup

- 1 Remove bulb from its box and screw it into a desired socket
- 2 Turn the power to the socket on
 - a. Full color bulbs should flash blue, red, green and white, and soft white bulbs should flash white four times
 - i. If the bulb does not flash as outlined above, power the bulb off and then on five times to reset the bulb
 - ii. Repeat step #2
- 3 Open the Home app on your iOS Device
 - a. To locate the app:
 - i. Swipe down on your screen search “Home”
 - ii. Search “Home” in the app store
- 4 Select “Add Accessory” (if this is your first smart device in your home)
 - a. If this is not your first smart device select the “+” button

SYLVANIA SMART+ Apple HomeKit Guide

Setup

- 5 Locate the 8-digit setup code found on the user manual that came with your bulb
 - a. If you cannot locate the instruction manual or Setup code, there is an 8-digit code printed on the bulb (###-##-###), enter this code manually
 - i. Select "Don't Have a Code or Can't Scan?"
 - ii. Select "Manual Code"
 - iii. Manually enter the 8-digit code printed on the bulb
- 6 Scan the 8-digit setup code using the home app
- 7 Select your smart device
- 8 Now your bulb should be connected and ready to use
