## New Manual Syringe Barrels

Product Update

OK International is pleased to introduce new manual plungers and pistons for the OKi 900 Series Syringe Barrels. The new manual syringe assemblies provide simple and quick dispensing solutions without the need for compressed air.

Molded from Polypropylene resin, manual plungers are compatible with a wide range of dispensing fluids.

Pistons are made from thermoplastic rubber and are available dry or with lubrication.

The manual plungers and pistons are available in 4 sizes: 3cc, 5cc, 10cc, 30cc and are conveniently packaged in boxes of 50 pieces.

Size	Part number	Description	EURO	GBP
3cc	903-PRL	900 Manual Piston Rubber, LUB, 3CC QTY = 50	9.29	8.39
	903-PRD	900 Manual Piston Rubber, 3CC QTY = 50	9.29	8.39
	903-PL	900 Manual Plunger, 3CC QTY = 50	10.68	9.65
5cc	905-PRL	900 Manual Piston Rubber, LUB, 5CC QTY = 50	10.68	9.65
	905-PRD	900 Manual Piston Rubber, 5CC QTY = 50	10.68	9.65
	905-PL	900 Manual Plunger, 5CC QTY = 50	12.07	10.90
10cc	910-PRL	900 Manual Piston Rubber, LUB, 10CC QTY = 50	12.07	10.90
	910-PRD	900 Manual Piston Rubber, 10CC QTY = 50	12.07	10.90
	910-PL	900 Manual Plunger, 10CC QTY = 50	13.46	12.16
30cc	930-PRL	900 Manual Piston Rubber, LUB, 30CC QTY = 50	14.86	13.42
	930-PRD	900 Manual Piston Rubber, 30CC QTY = 50	14.86	13.42
	930-PL	900 Manual Plunger, 30CC QTY = 50	18.57	16.77
