Stiletto 2

Portable SIRIUS Radio

Meet the Stiletto 2™
It's a whole new breed.

Say hello to the next generation portable radio from SIRIUS.
This kit contains everything you need to listen to SIRIUS®, just about anywhere.
Stiletto 2 gives you powerful features. Like the ability to save up to 100 hours of
songs and shows. It can also download and play MP3 & WMA files you already own.

›› Listen to over 130 channels of live, 100% commercial-free music, plus sports, and talk.

›› Listen live to SIRIUS Internet Radio over an accessible Wi-Fi network.

›› Save up to 100 hours of programming and store personal MP3 & WMA files. Expand
    MP3 & WMA memory by adding a microSD™ card.

›› Schedule recordings up to 6 hours long – never miss your favorite shows.

›› Add music you hear to the "Wish List" and go online to purchase / download it from
    almost any Windows Media® based music service.

›› My SIRIUS Studio™ software is included, which supports downloads of both purchased
    and subscription based content. You can even mix it up to create your own playlists.

Warning & Safety Information

FCC Information

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

1. This device may not cause harmful interference, and

2. This device must accept any interference received, including interference that may cause undesired operation.

FCC Interference Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one of the following measures:

>> Reorient or relocate the receiving antenna.

>> Increase the separation between the equipment and receiver.

>> Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

>> Consult the dealer or www.sirius.com for help.

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment. This device and its antenna(s) must not be co-located or operated in conjunction with any other antenna or transmitter. For product available in the USA market, only channel 1~11 can be operated. Selection of other channels is not possible.

FCC Radiation Exposure Statement

This equipment is SAR compliant for general population/uncontrolled exposure limits specified in ANSI/IEEE C 95.1-1999 and has been tested in accordance with the measurement methods and procedures specified in OET Bulletin 65 Supplement C.

Canadian Compliance

This Class B digital apparatus complies with Canadian ICES-003.
Cet appareil numérique de la classe B est conforme à la norme NMB-003 du Canada.

General Precautions

SIRIUS disclaims all liability for hearing loss, bodily injury, or property damage as a result of the use or misuse of this product.

Volume and Hearing Safety Precautions

>> Be aware of your surroundings. Use of earbuds or headphones while riding a bike or operating a vehicle / motorcycle is not recommended, and may be against the law.

>> If you experience ringing in the ears while listening stop using Stiletto 2 and consult a medical professional.

>> Start volume low. Gradually turn it up to a medium level which you can hear. If ambient sounds around you are noisy or loud, do not raise volume to high level. Find a quieter location instead.

>> Permanent hearing loss can occur if volume is set too high.

›› Use of earbuds / headphones for an extended period can cause serious damage to your ears. Do not wear them for prolonged time periods, such as while sleeping.

Liquid Crystal Precautions

If the LCD screen on the Stiletto 2 is damaged, do not touch the liquid crystal fluid. If any of the following situations happen, take the action indicated:

›› If fluid comes in contact with skin, wipe skin with cloth and wash thoroughly with soap and running water.

›› If fluid gets into eye, flush eye with water for at least 15 minutes. Seek medical care.

›› If fluid is ingested, flush mouth thoroughly with water. Drink large quantities of water and induce vomiting. Seek medical care.

General Safety Precautions

Observe the following warnings. Failure do so may result in a serious accident.

›› Do not expose Stiletto 2 to moisture or use near or in water. Do not handle with wet hands, or let any liquid spill on or in it.

›› Do not operate the Stiletto 2 in a way that might distract you from driving safely. The driver alone is responsible for safely operating a vehicle in accordance with the law.

›› Do not open the device except to change the battery or SD card. Never put any metallic objects inside it.

›› If device emits smoke or unusual odors, turn power off immediately.

›› Do not drop device or subject it to strong shocks.

›› If device doesn't seem to be working, turn it off, remove the battery, wait 10 seconds, replace battery and then turn it on again.

Operating Temperature

The Stiletto 2 is designed to operate between -5° to +40° C (23° to 104° F). Avoid leaving the device in a vehicle or elsewhere where the temperature may fall outside this range. Extreme temperatures or extreme temperature fluctuations can degrade the performance of the LCD display screen and battery and possibly damage it.

Cleaning & Maintenance

If the Stiletto 2 becomes dirty, turn power off and wipe clean with a soft, clean cloth. Do not use hard cloths, paint thinner, alcohol, or other volatile solvents to clean. These may cause damage to the device.

Tip

My SIRIUS Studio Software

The My SIRIUS Studio software contained on the CD-ROM should be installed before connecting the Stiletto 2 to your computer. It allows you to connect the device to any computer running Windows® XP with Service Pack 2 or Vista. It is critical that this software be used to transfer / manage information on your Stiletto 2 to ensure that the device's operating system is not damaged.

My SIRIUS Studio also allows users to receive device software updates as they are made available by SIRIUS. Periodically connect the Stiletto 2 to your computer to load the latest updates. Refer to the user guide included on the CD-ROM for further information about installing and My SIRIUS Studio.

Getting Started

**Package Contents**

Included in the Stiletto 2 package:

Stiletto 2

Battery

Antenna Headphones

Ear Buds & Pads
AC Adapter

PC Cable

User Guide, Inserts & Software CD

Want to enjoy Stiletto 2 in your home or office?

Stiletto 2 Home Kit (Model SLH2)
The Stiletto 2 Home Kit gives you everything you need to connect your Stiletto 2 to a home stereo system or powered speakers.

Want to Take Stiletto 2 on the road?

Stiletto 2 Vehicle Kit (Model SLV2)
If you'd like to use your Stiletto in a vehicle, you can purchase the optional Stiletto 2 Vehicle Kit.

Battery Life

When fully charged, the Stiletto 2 battery will provide a range of listening times depending on the listening mode. The following table illustrates the approximate listening times:

Approximate Listening Time (Hours)
Certain radio settings can impact battery life

As batteries age, the amount of listening time diminishes. Replacement (or spare) batteries are available from your SIRIUS product retailer, or at www.sirius.com. The amount of listening time the battery provides is dependent upon several settings. To extend overall listening time, try:

» Decreasing the length of backlight time

» Adjusting the brightness of the display screen to a less bright setting

Both of these adjustments are made through the Settings menu. Refer to Brightness and Backlight Timer on page 73 for details about these settings.

Battery Installation / Removal

To access the Stiletto 2 battery, slide the battery lid toward the bottom of the Stiletto 2 and remove it. The battery can then be installed or removed. Once installed, you should not need to remove it unless installing a microSD memory card.

Battery

Battery Lid

For Model No. SL2 Battery Pack
Rating: 3.7v 1615mAh Li-ion Polymer

⚠ WARNING:
DO NOT HEAT ABOVE 85° (140°)
DO NOT ATTEMPT TO OPEN, SERVICE OR
DISASSEMBLE THE BATTERY PACK.
DO NOT SHORT CIRCUIT.

Battery Compartment

Battery Charging

» You will want to fully charge your device before first use. Radio batteries are shipped with partial charge only.

» Turn device off for fastest charging time by sliding down the power switch momentarily and releasing.

» Connect the AC Adapter as shown.

» A blue LED will emit under the power on/lock switch indicating an "Off" device is charging.

Power Connector

Battery Disposal

When disposing of batteries, do so in accordance with the local waste disposal regulations. Batteries should not be disposed of in household waste, but should be recycled instead.

Removable Media Cards

The Stiletto 2 has 2GB of internal memory. This is sufficient to store up to 100 hours of SIRIUS recordings or a combination of SIRIUS content and up to 800 MB of MP3/WMA files.

» Removable media can be added to support storage of more MP3/WMA files.

» Stiletto 2 is compatible with microSD memory, available from most electronic retailers.

Installing / Removing microSD Cards

» The microSD card slot is located under the battery. To install a microSD card remove the battery. (Page 10)

» Following battery removal, the microSD card slot will be visible. (see illustration below)

Tip

For optimal performance, use a PC to format your high capacity microSD card as FAT32 prior to use in your Stiletto 2.
To insert the card:

1. Slide metal door to the right, then lift / open the door

2. Insert the microSD card beneath both tabs as shown in the battery bay of the device

3. Close the metal door, then slide it to the left
4. Reinstall the battery and cover

You can verify that the Stiletto 2 has recognized that the microSD card is present by pressing the ◣ **Home Button** and selecting **Settings** ➜ **Device** ➜ **microSD Card**.

Receiving a Satellite Signal

Stiletto 2 has an internal antenna. To receive the satellite signal your Stiletto 2 must have a clear view of the sky. Obstructions such as buildings, trees, bridges, and high voltage power lines can interfere with the satellite signal. In some areas, Sirius also transmits a terrestrial signal to augment the satellite broadcast. The terrestrial signal is identical to the satellite signal, and your radio will switch automatically to the strongest signal.

The human body will block satellite and terrestrial signal reception if it is placed between the Stiletto 2 and the transmission source. It is possible to lose even a strong signal as you move and change position.

Getting A Signal (1/3)

Make sure your radio has a clear view of the sky so it can find a signal. When the bars below light up, you're ready to continue.

Next Screen
Previous Screen

Getting A Signal

Using Antenna Headphones

The use of the antenna headphones included with your Stiletto 2 will help to improve reception significantly. By placing the antenna above any interference from the body, signal reception can be improved.

You can view Signal Strength in your location by:

1. Reading the signal strength meter in the Activation Wizard.

2. Or after activation, by navigating from the **Main Menu** to **Settings** → **Device** → **Antenna Aiming.** At least one of the signals should be greater than 50% to reliably activate and use.

The Home Dock and Car Dock will also help to improve Satellite reception.

Antenna Aiming

Adjust your antenna position to maximize signal strength.

Device Tour

Operation

The Stiletto 2 delivers great audio entertainment in four distinct listening modes:

1. Satellite Radio
Listen live to satellite broadcasts of all SIRIUS 100% commercial-free music channels, talk, and sports programing. (Page 26)

2. Internet Radio
Listen live to SIRIUS 100% commercial-free music and select talk channels streamed over the Internet via a Wi-Fi network connection. (Page 42)

3. Radio Replays
Listen to SIRIUS 100% commercial-free music that has been automatically saved from the channels you listen to most. (Page 62)

4. Library
Listen to your stored songs and shows as well as any music you have downloaded from your PC. (Page 51)

Each of these modes are described in detail in the sections following along with:

Recording
Set up scheduled recordings to record SIRIUS broadcasts. (Page 65)

Settings
Manage a variety of device preferences from SRS audio enhancement levels and display brightness settings to Wi-Fi access. (Page 69)

Satellite Radio
Satellite Radio

Satellite Radio allows you to listen to and record music, talk, sports, and more everywhere you are able to receive a signal from our satellite or terrestrial transmitters. You can browse / select SIRIUS channels and see information about the broadcast, such as song, artist and program names or locations of traffic and weather reports. From your **Main Menu**, use the ◉ **Media Dial** to highlight "Satellite Radio", then press the ● **Select Button** at the dial's center.

Now Playing Screen Information

The Now Playing screen is displayed whenever any audio is being played. It provides information such as the currently tuned channel, song or show being played, mode, recording, and other information.

Recording Live Radio

Stiletto 2 lets you record up to 100 hours of any broadcast heard while listening to Satellite Radio. Your device can record 3 ways: Record a total of 10 hours of individual songs, save entire broadcasts for any length of time up to 6 hours long, or set up regular scheduled recordings to take place even when you're not listening.

Songs, shows, sports games and more can be recorded and saved on your Stiletto 2 by pressing ♥ **Love** while listening to a live broadcast in Satellite Radio.

›› Press ♥ **Love** once to record (save) the current song to your Library.

›› Press and hold ♥ **Love** to record (save) the current channel for the rest of the hour, or to set additional recording options.

Tip

You can only ♥ **Love** a song, show or broadcast while listening "live" in Satellite Radio. This functionality will not work in Internet Radio, or from the Replay Buffer if you have paused the live broadcast.

While recording from Satellite Radio, you can listen to the channel being recorded — or any Library content — and your device will continue recording in the background. If you try to change channels, or if you switch to Internet Radio before the recording completes, you will be asked if you want to "Stop recording?".

›› **Continue recording** will return you to the Now Playing screen for the song or show being recorded.

›› **Stop (keep partial)** will allow you to tune to a different channel or Internet Radio and will save a portion of the recording to your Library.

›› **Stop (delete partial)** will allow you to tune to a different channel or Internet Radio and discard or erase the current recording.

Recording a Song

You can record your favorite songs to your device while listening to any Satellite Radio music channel with a single press of ♥ **Love**. Because your device starts buffering (or caching) a channel as soon as you begin listening.

To save a song as it is playing:

1. Press ♥ **Love** to begin saving the song.

2. While the song is being saved, the love icon will be displayed briefly, and then the ♡ **Heart Icon** is displayed at the bottom center until the content has finished saving.

3. The song is saved in the Library. Refer to the Library section on page 52 for information on playing back the song.

4. The Stiletto 2 will attempt to retrieve as much of the elapsed song or show as is available in the replay buffer.
Recording song

The Stiletto 2 limits the amount of songs saved using ♥ **Love** to a total of 10 hours. If you exceed that limit, the oldest songs "recorded from SIRIUS" will be automatically deleted to make space for new loved songs. Display messages will appear to remind you that you may lose older music and that you can keep tracks permanently by downloading authorized MP3 or WMA files from your personal collection or any Windows Media based online music service.

Recording a Show

Just like you can ♥ **Love** a single song, you can easily start a longer recording (e.g. a concert, talk or entertainment show) for the channel you are listening to by pressing and holding ♥ **Love**. Your device will display the "Setup Recording" dialog — offering you two choices:

›› Record this channel for the remainder of the current hour, or

›› Adjust recording options if you want to extend the recording beyond the end of the hour.

If you wish to record several hours of the channel you are listening to:

1. Press and hold ♥ **Love** and select Recording options

2. In the New Recording screen, turn the ⊙ **Media Dial** to highlight Duration

3. Press the ● **Select Button** to change the recording duration.

4. Turn the ⊙ **Media Dial** to increase or decrease the recording duration.

5. Press the ● **Select Button** again to save the new recording duration

6. Turn the ⊙ **Media Dial**, highlight Done and press the ● **Select Button** to save your new settings.

The ♡ **Heart Icon** will be displayed at the bottom center of the screen to indicate that a recording is in progress. (If you have selected for the recording to begin at a later time, the recording will begin at the scheduled time. Refer to the Recording section on page 66 for more information.)

All new recordings are saved in the Library and can be quickly listened to by selecting **Heard on SIRIUS → Recently Recorded**. Refer to page 55 for more information.
Change recording parameters
Select recording options

Sports

Your device contains several special features to help you stay "in the game" and listening to your favorite SIRIUS radio sports broadcasts. These features only work in Satellite Radio:

Sports Ticker: Automatically displays the current score in the Now Playing screen for any game(s) in progress featuring team(s) you have designated as "favorites."

Game Alert: Automatically displays a notice in the Now Playing screen before a game-of-interest (containing a Favorite team) is about to start.

Game Zone: A special category in Satellite Radio that lists all games-in-progress for your Favorite teams.

Sports Broadcast Now Playing Screen

While listening to any Sirius play-by-play sports broadcasts, the Now Playing screen will display the team names and current score along with information on the channel number, signal strength and supplemental information such as game period or team logos may also be displayed.

Sports Now Playing Screen

Adding and Removing Favorite Teams for Game Alerts and Sports Ticker

Before Sports Ticker or Game Alert will appear, you must first mark or identify your favorite teams. Only favorite teams will be displayed in the Sports Ticker or Game Alert.

1. From the **Main Menu** select Settings ➜ Sports ➜ Favorite Teams and select the desired professional or college league you want to add or remove. (Figure 7)

2. Once viewing the correct league, turn the ◐ **Media Dial** to highlight each team of interest.

3. Press the ● **Select Button** once to include the highlighted team in Sports Ticker. Press the ● **Select Button** once again if you wish to include the team in Game Alerts as well.

You can remove teams from Ticker and/or Alerts by repeatedly pressing the ● **Select Button.** The third press removes the team from Ticker, and the fourth press removes the team from Alert.
Tip

You can quickly add or remove all teams to Sports Ticker or Game Alerts by pressing the ⌦ **Options Button** and selecting the appropriate option (Add all or Remove all from...).

Game Zone

Game Zone

The Game Zone category lists all the sports games which are currently playing for your favorite teams, and can be browsed for the games scores. (Figure 8) You can scroll though the list and select a game to tune to the channel where the game is being broadcast.

Parental Controls

The parental controls feature sets a password for access to specific channels. This will prevent access to these locked channels until the password is entered. (Figure 9)

No details about the current content of a locked channel will be displayed. When you attempt to access a locked channel, you will be prompted to enter your password before proceeding. (Figure 10) The parental control feature is accessed through the Settings menu, as described in Parental Controls on page 74.
Hiding channels and genres, as described in the next section, can be an alternative to locking channels.

Hide Channels / Genres

The hide feature allows you to designate channels and genres to not be displayed when browsing channel and genre lists. The hide feature differs from the parental control lock feature in that a locked channel will be displayed while browsing a list (but is password protected), while a hidden channel will never appear in a list.

Hidden channels are not locked, but can only be tuned by directly entering the channel number using the numeric keypad on the remote control when the Stiletto 2 is in a docking station. The hide feature is accessed through the Settings menu, as described in Hidden Channels on page 74.

Internet Radio
Internet Radio

Your Stiletto 2 will allow you to listen to and enjoy all the channels available on SIRIUS Internet Radio over any accessible Wi-Fi networks whether at home, at work, or on the go with ever-growing number of wireless networks or "hotspots" available at coffee shops, airports, metropolitan cities, colleges, hotels, and more. All SIRIUS 100% commercial-free music channels and select talk channels are available with your standard, SIRIUS subscription.

To listen to Internet Radio on your Stiletto 2, from the **Main Menu** turn the ◉ **Media Dial** to highlight Internet Radio and press the ● **Select Button**.

Getting Connected

Before you can listen to SIRIUS Internet Radio, you will need to connect to an accessible Wi-Fi access point or hotspot. Unless the access point is unprotected or "open", you will need the network password (also known as the passphrase).

Stiletto 2 Wi-Fi Basics

Stiletto offers enhanced Wi-Fi functionality including the ability to work with:

›› 802.11b and 802.11g wireless networks

›› WEP and WPA encryption

›› Hidden wireless networks (SSID not broadcast)

›› Select paid wireless networks (e.g. AT&T Wi-Fi, T-Mobile, etc.)

›› Select "captive portal" networks (e.g. Google Wi-Fi, MetroFi, etc.)

Tip

Because Internet Radio is streamed and not broadcast, certain features available when listening to Satellite Radio are not supported. It is not possible to record any material from Internet Radio or pause and rewind live content

Connecting to Wi-Fi for the first time

The first time you select Internet Radio on your device, please be sure you are in close proximity to an Wi-Fi hotspot or access point, then:
1. Turn the ◎ **Media Dial** to highlight **Internet Radio**, then press the ● **Select Button**.

2. The "Please Wait... Finding networks" overlay will be displayed.

3. Turn the ◎ **Media Dial** to highlight a Wi-Fi network listed in the "Choose Wi-Fi Network" to which you have access (Figure 11), then press ● **Select**. Open networks are displayed without a "lock" icon; secure networks that require a password will have a "lock" icon displayed to the right of the network name. Networks that are not supported (e.g. ad-hoc, WPA-Enterprise) will show a ⊘ symbol instead of signal strength bars.

4. Follow the on-screen instructions to enter your user name and password for the selected access point. (Figure 12, 13) If your access point password is a hex string, you can press **Options → Use hex keyboard** for faster password entry.

Password Prompt

5. After entering your access point password, press the ⬒ **Options Button** and select "Connect now."

6. Your screen may display **Connecting to <name> overlay…checking overlay… Connected to <AccessPointName> overlay.**

7. Once connected, select a genre or preset to select a channel to listen to live SIRIUS Internet Radio.

Connecting to previously-used Wi-Fi networks

Connecting to a Wi-Fi network that you have already used is as simple as selecting Internet Radio. Your Stiletto 2 will automatically connect to any available network that is saved to the Network List. To view the networks already saved in your list go to **Settings ➔ Wi-Fi ➔ Network List**.

Hidden Networks

Some networks may be configured as "hidden". These will appear as <Hidden Network> in the Choose Wi-Fi network list. To connect, choose the hidden network and enter the exact name of the Wi-Fi network. The Stiletto 2 will then attempt to connect to that network.

Using Wi-Fi at Work

The Stiletto 2 will allow you to connect to a wide variety of Wi-Fi networks including 802.11b and 802.11g. Some corporate networks however are secured using 802.1x (sometimes called WPA-Enterprise) security. The Stiletto 2 is not compatible with these networks. If you are not sure what type of Wi-Fi network is available at your work or are having problems connecting, check with your network system administrator.

Some business wireless networks block direct Internet access from Wi-Fi clients or devices like the Stiletto 2. The Stiletto 2 needs direct, non-proxied access to HTTP and HTTPS TCP/IP ports (80 and 443 respectively). If you are not sure what type of Wi-Fi network is available at your work or are having problems connecting, check with your network system administrator.

If you need to provide technical details to your network system administrator, the most commonly-requested information can be found in the following locations:

›› MAC address: listed in **Settings ➔ Wi-Fi ➔ Wi-Fi Status ➔ Wi-Fi Connection Status**

›› BSSID: listed in **Settings ➔ Wi-Fi ➔ Wi-Fi Status ➔ Wi-Fi Connection Status**

Using Wi-Fi on the go

The Stiletto 2 can access many paid and free Wi-Fi "hotspots" while you're on the go. If you have an active account with a major Wi-Fi network provider like T-Mobile or AT&T, you can now use your login information (username and password) to connect to any of these networks.

You can also connect your Stiletto 2 to many free Wi-Fi networks, like those you might find at a coffee shop or in many metropolitan areas. Depending on the Wi-Fi network provider, you may be prompted for a username before you are allowed to connect. Try entering your email address when prompted for a username, and anything at all when prompted for a password. The Stiletto 2 will use this information and attempt to connect to the network. If you are not sure if you have a valid account with a particular Wi-Fi network, you should never enter a real password.

Functional Differences between Internet Radio and Satellite Radio

A few notable differences exist between Satellite Radio and Internet Radio:

Channel Lineup: while most music channels are available in both Satellite and Internet Radio, several talk and special programming channels are only available in Satellite. Visit http://www.sirius.com/whatsonsirius for the current channel lineup.

Recording: When listening to Internet Radio, saving songs or recording programs is not possible. Pressing the ♥ **Love** button will save the song title and artist information to your Wish List. Fore more information, see Adding Songs to the Wish List later in this chapter.

Trick Play: while Satellite Radio allows you to pause/rewind/replay live SIRIUS broadcasts, pressing "Play/Pause" will only "Mute" the audio in Internet Radio

Near CD quality SIRIUS Music: Enjoy the best possible sound quality for your Stiletto 2 radio through our Premium Internet Radio service available only through Internet Radio listening (an additional subscription is required).

Internet Radio Now Playing Screen

The **Now Playing** screen for SIRIUS Internet Radio provides information such as the currently tuned channel, song or show being played, mode, and other information. The buffering information will only be shown when a strong and consistent Wi-Fi connection is not being maintained. To improve this, try moving to a different physical location to improve the signal strength indicator reading.

Browsing and Navigating Channels

When Internet Radio is selected, available SIRIUS Internet Radio channels are displayed in groups by genre (also referred to as categories). From the All Channels or any of the genre list views, available channels may be browsed by using ◀◀ **Rewind** and ▶▶ **Fast-Forward**. Use the ⦿ **Media Dial** to highlight your choice, and press the ● **Select Button** to select a channel. It is not possible to pause Internet Radio, however, you can mute the audio by pressing ▮▶▮ **Play/Pause**. When muted, press ▶▶ **Fast-Forward**, ◀◀ **Rewind**, or ▮▶▮ **Play/Pause** to resume listening.

Adding Songs to the Wish List (Favorites)

Unlike Satellite Radio, pressing the ♥ **Love Button** when listening to Internet Radio will save the song and artist information for the song to your **Wish List**.

The saved song information can be viewed on the device (**Home → Library → Wish List**), through My SIRIUS Studio software (**Stiletto 2 → Playlist: Wish List**) or with any other compatible online music service when your Stiletto 2 is connected to a PC computer. This makes it easy for you to find more information about the song or artist, and purchase your favorite songs. Refer to the Stiletto 2 User Guide included with your Stiletto 2 for more details about the Wish List feature.

Toubleshooting
For additional help, refer to page 80.

Library
The Library contains all ♥ **Love** songs and recorded SIRIUS shows as well as MP3/WMA music files transferred from your PC computer. All recordings of music, sports, talk shows, news broadcasts, and talk entertainment can be browsed and played when no satellite signal or Wi-Fi network is available (airplane flights, etc).

To access the Library on your Stiletto 2, from the **Main Menu** use the ◎ Media Dial to highlight Library and press the ● Select Button.

Now Playing Screen Information

When playing back content from the Library, the **Now Playing** screen provides information such as the song or show title, content length, and playback position. Figure 14 identifies the information which is displayed when in the Library mode.

Navigating Music

While listening to songs and recordings in the Library, you can pause, fast-forward, or rewind or skip from song-to-song. Pressing ▶❚❚ **Play/Pause** will pause the content, or begin playing again after a pause. Use ▶▶ **Fast-Forward** and ◀◀ **Rewind** to move through the content: a single press will skip to the end or the beginning of the content, while pressing and holding will move through the content.
A time bar is displayed in which a ♦ **Diamond Icon** indicates your current listening position in the content. (Figure 14)

Browsing and Navigating the Library

The music content in the Library may be browsed in several ways, by: songs heard on SIRIUS, artist, album, title, genre, playlist. (Figure 15) If you have added a microSD card to your Stiletto 2, all MP3/WMA music files you have downloaded to the card will also appear in the Library. Scheduled recordings may be browsed by channel, recording date and genre. Use the ◉ **Media Dial** to scroll through the lists and press the ● **Select Button** to select a highlighted item. Locate the specific content you'd like to listen to and press ▶❙❙ **Play/Pause** to begin playback.

While you are listening, the ◱ **Options Button** will allow you to turn the shuffle mode on or off.

| Browsing and Navigating the Library	
Browsing Options	**Description**
Shuffle All Songs	• When selected, this option randomly plays songs stored in Library
Heard on SIRIUS	• Browse for content you've saved from SIRIUS broadcasts using ♥ Love and scheduled recordings. (Figure 16) • When selected, this option allows you to refine your search for SIRIUS recorded content by browsing for Recently Recorded, Channels, Artists, Titles, or Genres.
Artists	• Search for content by a particular artist within all the songs in the Library, including those saved by using ♥ **Love** as well as MP3 and WMA files downloaded from your PC computer. (Figure 17) • When selected, this option displays a list of artists in alphabetical order. Pressing ⏯ **Play/Pause** will begin playing all the songs of the highlighted artist. Selecting an artist displays all songs by that artist contained in the Library. Items recorded from SIRIUS broadcasts have a ♥ **Heart Icon** displayed to the right of the title. You can use ⏩ **Fast-Forward** or ⏪ **Rewind** to scroll through the artists in the Library.
Albums	• Search for content from a particular album within all the MP3 and WMA files downloaded from your PC computer. (Figure 18) • When selected, this option displays a list of albums in alphabetical order. Pressing ⏯ **Play/Pause** will begin playing the songs in the highlighted album. Selecting an album displays all the songs from that album in the Library. You can use ⏩ **Fast-Forward** or ⏪ **Rewind** to scroll through the albums in the Library.

Browsing and Navigating the Library	
Browsing Options	**Description**
Titles	• Search for a particular song contained in the Library, including those saved by using ♥ **Love**, and MP3 and WMA files downloaded from your PC computer. (Figure 19) • When selected, this option displays a list of song and show titles in alphabetical order. Items recorded from SIRIUS broadcasts will have a ♥ **Heart Icon** displayed to the right of the title.
Genres	• Search for songs or shows of a particular genre, including those saved by using ♥ **Love** and scheduled recordings, as well as MP3 and WMA files downloaded from your PC computer. (Figure 20) • When selected, this option displays a list of genres in alphabetical order. Pressing ⏯ **Play/Pause** will begin playing the content in the highlighted genre. Selecting a genre displays all the songs or shows of that genre in the Library. Items recorded from SIRIUS broadcasts will have a ♥ **Heart Icon** displayed to the right of the title. You can use ⏩ **Fast-Forward** or ⏪ **Rewind** to scroll through the genres in the Library.

Browsing and Navigating the Library	
Browsing Options	**Description**
Playlists	• Select playlists for listening, and songs within a playlist. (Figure 21) There are two kinds of playlists to choose from: – Smart playlists are automatically created in the Library and are listed in parentheses: (Recently Added) is the most recent 250 titles. (Most Played) and (Least Played) list titles which have been played the most or the least. – User playlists are playlists you create on your PC computer and then transfer to the Stiletto 2. • Selecting a playlist by pressing ▶‖ **Play/Pause** will begin playing the content in the playlist. The order of the songs will depend on the type of playlist, and whether shuffle has been chosen using the ◣ **Options Button**. You can use ▶▶ **Fast-Forward** or ◀◀ **Rewind** to scroll through the playlists in the Library.
Wish List	• Whenever you press ❤ **Love** in Satellite Radio or Internet Radio, the song displayed is added to the Wish List. (Figure 22) • Songs are displayed in reverse chronological order (newest to oldest) and includes old Loved songs that may have been automatically deleted to make room for new Loved songs based on the 10-hour limit for ❤ **Love** songs. – To delete individual items or all items from the Wish List, press the ◣ **Options Button**. Select Remove this Wish List Track to remove the individual item, or Remove all Wish List Tracks to delete all items from the Wish List. • A star appears to the right of the song title if the song was added to the Wish List, and a heart if the song had been deleted to make room for new content.

Adding Songs To The Wish List

Any song that you have loved or saved to the Wish List is viewable in the Library. Songs title and artist information saved to the Wish List is available when using the My Sirius Studio software or other compatible media management software. This makes it easy for you to find more information about the song or artist, and purchase the music if desired. Refer to the user manual on the My SIRIUS Studio CD-ROM included with your Stiletto 2 for more details about the Wish List feature. To view the contents of your Wish list, select **Library → Wish List**.
Wish List Song

Deleting Content from the Library

Pressing the ⬏ **Options Button** while listening will allow you to delete the content. (Figure 23) The ⬏ **Options Button** may also be used when browsing the various lists to delete the entire list. For example, when browsing by artist, highlighting an artist name and pressing the ⬏ **Options Button** will prompt you to remove all content by that artist from the Library. When browsing by block recording, it will delete the entire recording, not just a single song.

Figure 23
Deleting a song

Supported File Formats For Downloaded Content

The Stiletto 2 can store and play MP3 or WMA files from your personal Library, and purchased or subscription content from most Windows Media (WMA) based online music sites. For information on how to download music files, see the My SIRIUS Studio software user guide included on the My SIRIUS Studio CD-ROM.

Stiletto 2 Memory Storage		
Content Type	**Storage Limitation**	**Notes**
Individual songs saved from SIRIUS broadcasts	10 hours	• A maximum limit of 10 hours of individual songs may be saved from live broadcasts. Once the 10 hour limit is exceeded, older content is automatically deleted to make space available for recently added songs. • As saved content approaches the 10 hour limit, You will be reminded that you are running low on space. Purchase and transfer these songs from your PC to avoid auto-deletion. • When the 10 hour limit is reached, each time you use ♥ **Love**, you will be reminded that you are deleting older content.
Scheduled Recordings & Time Block recordings	100 hours	• Scheduled recordings will be kept to the minimum "keep" count with newer recordings replacing older content. (Refer to the Recording section on page 65 for more information.)
Downloaded MP3 & WMA files (purchased and subscription content)	800 MB of Internal Memory	• Half of the memory available on the Stiletto 2 may be used for the storage of downloaded, purchased or subscription content. Once downloaded to the Stiletto 2, content will remain until it is deleted by you. • Add a microSD memory card to store additional MP3 and WMA files. • The microSD card cannot be used to store SIRIUS content.

| Stiletto 2 Memory Storage		
Content Type	Storage Limitation	Notes
Radio Replays	Available Memory	• Radio Replays are automatic recordings of favorite SIRIUS Satellite Radio channels you listen to most. (Refer to the Radio Replays section on page 62.) Radio Replays occupy any unused memory and are deleted automatically to make space available for scheduled recordings or transferred MP3 / WMA files from your PC computer.

Radio Replays
Radio Replays

Radio Replays are automatic recordings of your favorite SIRIUS music channels. While listening to any SIRIUS music channel, blocks of programming may be saved for your in unused memory as a virtual channel. This assures that you will always have SIRIUS music to listen to, even when a Satellite Radio or Internet Radio signal is not available.

To access Radio Replays, from the Main Menu use the ◎ **Media Dial** to highlight Radio Replays and press the ● **Select Button**.

Navigating Radio Replays

Radio Replays are listed in numerical order by SIRIUS channel along with the total time saved from each channel. (Figure 25) Use the ⊙ **Media Dial** to scroll through the list of channels and the press the ● **Select Button** to choose a Radio Replay.

Figure 25

Listening Mode or Clock

▶❚❚ **Play/Pause** will pause and resume playback of the selected Radio Replay. ▶▶ **Fast-Forward** and ◀◀ **Rewind** allow you to move forward and backward through the content. The Stiletto 2 remembers the last point you paused or stopped in the Radio Replay and resumes playback at that point when you begin listening again.

If you wish to remove a Radio Replay from the list, turn the ⊙ **Media Dial** to select it, then press **Options → Remove this Replay...**

Adding Songs to the Wish List

When listening to Radio Replays, saving songs or recording programs is not possible. You may save the song title and artist information to your Wish List by pressing ♥ **Love**. The information saved in the Wish List is available when using the My SIRIUS Studio software or any other compatible online music service when your Stiletto 2 is connected to a PC. This makes it easy for you to find more information about the song or artist, and purchase the music if desired. Refer to the user manual on the My SIRIUS Studio CD-ROM included with your Stiletto 2 for more details about the Wish List feature.

Scheduled Recordings
Recording allows you to schedule the Stiletto 2 to record programming at a set date and time. Each recording session may be up to 6 hours in length, and may be set up as a one time or repeating event. In order for a scheduled recording to occur, the Stiletto 2 must have adequate power and be able to receive the SIRIUS signal from the satellites or terrestrial transmitters. If the Stiletto 2 is on or in sleep mode, the Stiletto 2 will automatically turn to the correct channel and begin recording. If no signal is present at the time the recording is scheduled to start, the recording will be skipped.
Completed scheduled recordings will be found in the Library. To access your scheduled recordings, from the **Main Menu** go to **Library** ➔ **SIRIUS Recordings**.

Scheduling a Recording

To schedule a recording, select Setup New Recording from the Recording menu. (Figure 26) If have not already set your time zone, you will be prompted to set it. (Figure 27)
The **New Recording** screen allows you to set the parameters of the recording. (Figure 28) Use the ◎ **Media Dial** to highlight a parameter and press the ● **Select Button**. Then use the ◎ **Media Dial** to scroll the list until the correct selection is highlighted, and press the ● **Select Button** to select it. When complete, select Done.

Settings

Settings

Settings allows you to make changes to the global settings of your Stiletto 2 and personalize your experience.

The following table describes each menu item and associated settings. The main **Settings** menu items are shown in bold text.

Stiletto 2 Settings		
Menu Item	Options	Description
Audio (Settings → Audio →)		
Speak Channels	On or Off	• Chooses whether the channel names are spoken as you browse lists of channels
System Sounds	On or Off	• Chooses whether the system sounds, beeps, and other tones are audible
System Volume	0 – 100%	• Adjusts the volume of the system sounds and spoken channel names
SRS TruBass	Off, Low, Medium, High	• Improves the perception of bass response by optimizing low frequency enhancement for different listening environments
SRS Focus	Off, Low, Medium, High	• Optimizes the stereo "sweet spot" for different environments by focusing the sound closer to the listener
Hidden Channels (Settings → Hidden Channels →)		
Hidden Channels	Choose Channels or Genres	• Selects (or de-selects) channels or genres to be hidden in channel lists
Device (Settings → Device →)		
SIRIUS ID	(none)	• Displays the SIRIUS ID (SID) number of the Stiletto 2 • This is a unique identification number assigned to your Stiletto 2. You'll need this number when you activate your SIRIUS Satellite Radio service.

Stiletto 2 Settings		
Menu Item	**Options**	**Description**
Antenna Aiming	(none)	• Displays the strength of the SIRIUS signal terrestrial transmitters
Device Tour	Yes or No	• Replays the device tour
Memory Usage	(none)	• Displays information on how much of the Stiletto 2's memory is being used • Selecting this option provides details on how the memory is allocated between all recordings, content downloaded from your PC computer, and content saved using ♥ **Love**
microSD Card	(none)	• Displays information about the microSD card, if present, including how much of the card is being used
Device Info	(none)	• Displays information about the model number, and software and hardware versions of your Stiletto 2, and IP address information when connected to a wireless network
Service Info	(none)	• Displays information that might be required by SIRIUS Customer Service
Legal Info	(none)	• Provides legal and copyright information for the Stiletto 2

Stiletto 2 Settings		
Menu Item	**Options**	**Description**

Reset and Erase	Yes or No	• Resets all the settings of the Stiletto 2 to the factory defaults:
		  – All presets are erased
		  – Display brightness is set to 80%
		  – FM Transmitter is set to ON
		  – Hidden channels are added back
		  – Favorite teams for game alerts are erased
		  – Game Alert is set to ON
		  – Sports Ticker is set to ON
		  – Clock is set to Eastern time zone
		  – Jump is set to none
		  – Speak Channel Name is set to ON
		  – System Sounds are set to ON
		  – All recordings scheduled are cancelled Channels locked with Parental Controls are unlocked
		  – Parental Controls password is cleared
		  – All items in the Library are erased
		• Note: If a Parental Control password has been set, you'll be prompted to enter the password before you can proceed with the reset

| Stiletto 2 Settings		
Menu Item	**Options**	**Description**
Display (Settings → Display →)		
Brightness	**5 - 100%**	• Adjusts the brightness of the display screen • A dimmer setting will prolong battery life
Backlight Timer	**2, 5, 10, or 30 Seconds**	• Adjusts how long the backlight of the display screen remains on after no buttons are pressed • A shorter setting will prolong battery life
Clock	**On or Off**	• Displays a clock at the bottom of the screen when listening
Time Zone	**Newfoundland Atlantic Eastern Time Central Time Mountain Time Arizona Pacific Time**	• Sets the time zone in which you reside • The Stiletto 2 is set to Eastern Time zone by default
Dock (Settings → Dock →)		
FM Transmit	**On or Off**	• Selects whether the FM transmitter is turned On or Off when the Stiletto 2 is in a docking station
Auto Shutdown	**Shut down or Never shut down**	• Selects whether the Stiletto 2 powers off after 4 hours when in a vehicle dock
Dock Info		• Displays info about dock type and software version

Stiletto 2 Settings		
Menu Item	**Options**	**Description**
Low Light Mode	**On or Off**	• Selects whether the brightness of the display is automatically reduced when the ambient light is low
Traffic/Weather	**Choose City**	• Selects a city for Traffic/Weather report for the Jump button when the Stiletto 2 is in the vehicle dock
Parental Controls (Settings → Parental Controls →)		
Parental Controls	**On or Off**	• Allows you to lock specific channels to prevent unauthorized listening by other family members. • If On is selected, you will be prompted to select a 4-digit password
Locked Channels	**Choose Channels**	• Individual channels may be selected (or de-selected) for locking • Locked channels will have the 🔒 **Lock Icon** displayed with the channel name • If unlocking channels, you will be prompted to enter the 4-digit password before they can be unlocked
Radio Replays (Settings → Radio Replays →)		
Radio Replays	**On or Off**	• Selects whether the Stiletto 2 should automatically save content for Radio Replays

Stiletto 2 Settings		
Menu Item	Options	Description
Sports (Settings → Sports →)		
Favorite Teams	Choose Teams	• Allows you to select your favorite teams for Game Alerts
Game Alerts	On or Off	• Selects whether the Game Alert feature is enabled or disabled
Sports Ticker	On or Off	• Selects whether the Sports Ticker feature is enabled or disabled
Wi-Fi (Settings → Wi-Fi →)		
Wi-Fi Status	On or Off	• Turns the Wi-Fi access for connecting to a wireless network On or Off • Also displays the MAC address of the Stiletto 2
Network List	Choose Network	• Displays a list of wireless networks to which the Stiletto 2 has previously connected

Connecting to your PC

Before connecting the Stiletto 2 to your PC computer, install the My SIRIUS Studio software. My SIRIUS Studio is a PC application that will allow you to easily transfer MP3 / WMA music files from your PC to your device or installed microSD card. Refer to the My SIRIUS Studio Software Installation section on page 77 for more information.

To connect the Stiletto 2 to a PC, connect one end of the USB cable to the Stiletto 2 and the other end to an available USB port on the PC.
Your PC computer software will recognize the Stiletto 2 and ask you which application you want to use to manage the content on your device. You may choose My SIRIUS Studio or any other compatible software including Windows Media® Player.

When you connect to the PC, the Stiletto 2 will display a message asking you to turn off Satellite Radio and connect. You may cancel and continue listening to Satellite Radio, or stop Satellite Radio and connect to the PC computer.

My SIRIUS Studio Software

The My SIRIUS Studio software included with your Stiletto 2 allows you to connect your Stiletto 2 to your PC computer. The software requires your PC computer to be using the Microsoft Windows XP operating system with Service Pack 2 installed, or the Vista operating system.

Tip

The My SIRIUS Studio software must be installed before connecting the Stiletto 2 to your PC computer.

The following list provides a few highlights of the capabilities of the software:

›› Creating playlists and adding songs to the playlists.

›› Streaming SIRIUS music channels over the Internet.

›› Checking for updates to the device software and downloading them to the Stiletto 2, and re-installing deleted device software.

Installing My SIRIUS Studio Software

›› Insert the My SIRIUS Studio software CD-ROM into your PC computer's CD-ROM drive to start the software installation.

›› If the installation does not begin automatically, double click the SIRIUS Studio Setup icon to begin the installation.

›› Follow the prompts of the software to complete the installation.

›› When the PC computer has rebooted, the My SIRIUS Studio software will be ready to use. Please refer to the user guide included on the software CD-ROM for instructions on using the software.

SiriusStudioSetup

Troubleshooting: General

If	Then
Stiletto 2 does not power on	• Check that battery is installed correctly • Check that battery is charged
Displays: "ACQUIRING SIGNAL"	• Stiletto 2 is searching for a satellite signal • Check for obstacles above / around satellite antenna • Change location / avoid obstacles to signal
Audio starts and stops	• Satellite signal is weak • Check for obstacles to satellite antenna (see above)
There is no sound	• Check that ear buds / antenna headphones are plugged in correctly
Stiletto 2 will not start up (or) Displays: "ERROR"	• Software is damaged • Connect Stiletto 2 to your PC using USB cable • Using My SIRIUS Studio, download new software onto device • Follow instructions included on CD-ROM
Stiletto 2 isn't responding to Media Dial / other buttons	• Stiletto is locked. Unlock using 🔒 **Power/Lock** switch (or) • Slide and hold 🔒 **Power/Lock** switch down for 5 seconds to turn it off (and) • Slide 🔒 **Power/Lock** switch down and release Remove battery. Wait 10 seconds. • Replace battery. (and) Slide 🔒 **Power/Lock** switch down and release.

Troubleshooting: Internet Radio

Observed Issue
A Wi-Fi network does not appear in the scan list
• The wireless network's name (SSID) may be hidden. Try selecting <HIDDEN NETWORK> and entering the network name. • You may be out of range of the wireless network. Try moving closer to the router and connecting again.
Connection screen shows: Unable to Connect
• You may have entered an incorrect password. Try entering it again. If the access point is configured for WEP, we recommend entering your password using the hex keyboard (available by pressing the Options button when prompted for a password.) • Only WEP and WPA-PSK are currently supported. • The router may require the entry of the MAC address of your Stiletto before it will allow you to connect. For details, please see the Internet Radio section in the Stiletto 2 User Guide.
Now Playing screen shows: Channel Unavailable Connection Error
• You may have connected to an open wireless network that requires additional authentication that is not currently supported. • An unknown connection problem may have occurred. Try connecting again.
Now Playing screen shows: Channel Unavailable Signal Lost
• You may have moved out of range of the wireless network. Try moving closer to the router, and then connect again. • The router may have been turned off or restarted. Verify that the router is on and connect again.

Now Playing screen shows channel information, but there is no audio	• Your router may be having problems connecting to the Internet. Check your broadband connection to the Internet and the router's configuration settings, or try turning the router off and then on again.
Now Playing screen shows "Buffering" and there is no audio	• The Stiletto 2 is streaming channel information from the Internet. When completed, the buffering message will disappear and the radio will begin playing.
Cannot save songs and shows using ❤ **Love** Cannot use ❙❙ **Play/ Pause**, ▶▶ **Fast-Forward** and ◀◀ **Rewind**	• Because Internet Radio is streamed and not broadcasted, some Satellite Radio features (pause/rewind/replay; Loving songs; scheduled recordings) are not supported.

Internet Radio Status

The **Status** line will often contain different messages that will help you better understand the details around your current (or previous) Wi-Fi connection.

Status Message	What it means?
Cannot connect to AP	• Could not negotiate handshake with the access point. • Try to connect by being within range of a Wi-Fi access point and selecting Internet Radio, or by selecting **Settings→Wi-Fi→Wi-Fi Status→ Options button → Choose Network...**
Connected	• You are connected to the listed access point • Relax and enjoy SIRIUS Internet Radio
Internet check failed	• Failed to contact the ZING Service Center for an unknown reason • Try moving to a different physical location with two or three signal strength bars displayed. Ensure you can log on to the access point and establish an Internet connection with a laptop computer.
IP address failed	• Bad or no DHCP available through the selected access point; may indicate an access point configuration problem. • Try connecting to a different access point

Status Message	What it means?
Not connected	• Not connected to an access point. • Try to connect by being within range of a Wi-Fi access point and selecting Internet Radio, or by selecting **Settings → Wi-Fi → Wi-Fi Status → Options button: Choose Network…**
Network Lost	• Device has moved beyond the range of the access point or access point power interrupted. • Try moving back in range of the access point; ensure you have at least two signal strength bars displayed for the selected Wi-Fi network.
Network login failed	• Navigated captive portal just fine, but authorization failed • Enter your network login information again
Network check failed	• Couldn't navigate through the captive portal; captive portal Wi-Fi network temporarily not supported. • Try connecting to a different access point.
Off	• The Wi-Fi radio is turned off and will not transmit or receive. • Select Internet Radio from the Home menu if you want to listen to Sirius Internet Radio over Wi-Fi.
Password failed	• Password entered (WPA/WEP) for access point is incorrect. • Re-enter the access point password.

Additional Information

Specifications

Satellite Frequencies	2322.293/2330.207 MHz
Terrestrial Frequencies	2326.250 MHz
Power Requirements	5 Volts, 2.0A Negative Ground, DC
Operation Temperature	-5° C to +40° C (23° to 104° F)
Audio Interface	1/8" / 3.5 mm Stereo Jack
Headphone Output	20mW @ 16 ohms
Signal-to-noise (S/N)	90dB (MP3)
Radio Dimensions (Height x Width x Depth)	110 mm x 50 mm x 16 mm
	(4.37" x 1.93" x 0.64")
Radio Weight	121 g (4.3 oz.)
Internal Memory	2 GB
microSD Card Size	up to 8 GB
Wi-Fi Standard	802.11b/g
Wi-Fi Security	WEP and WPA(2) Personal
Wi-Fi Antenna	Integrated Internal
Internal Antenna Type	Integrated, Low Profile Patch

End User Agreement

SIRIUS SATELLITE RADIO INC.

END USER LICENSE AGREEMENT

This End User License Agreement (this "EULA") sets forth the agreement between you and SIRIUS Satellite Radio Inc. ("SIRIUS") for the use of the software in Stiletto SIRIUS satellite radio receivers (the "Receiver Software"), the My SIRIUS Studio computer software, and SIRIUS Device Recovery computer software (the "Computer Software" and, together with the Receiver Software, the "Software") and their use with Stiletto Series SIRIUS satellite radio receiver and accessories (the "Receiver") and SIRIUS' satellite radio service (the "SIRIUS Service").

In addition, for your use of the SIRIUS Service, you agree to be bound by the "Terms & Conditions of Service" set forth at: http://www.sirius.com/serviceterms (the "Terms and Conditions").

YOU ACKNOWLEDGE AND AGREE THAT YOU HAVE READ AND UNDERSTAND THIS EULA. BY USING THE RECEIVER AND THE RECEIVER SOFTWARE, CLICKING ON THE "ACCEPT" BUTTON TO INSTALL THE COMPUTER SOFTWARE, AND/OR INSTALLING, COPYING OR OTHERWISE USING THE COMPUTER SOFTWARE, YOU AGREE TO BE BOUND BY THE TERMS OF THIS EULA. IF YOU DO NOT AGREE TO THE TERMS OF THIS EULA, CLICK ON THE "CANCEL" BUTTON IF YOU ARE INSTALLING THE COMPUTER SOFTWARE SO THAT IT IS NOT INSTALLED, AND DO NOT USE THE RECEIVER.

1. GRANT OF LICENSE. SIRIUS hereby grants to you a non-exclusive, limited, license to use the Software and any related documentation (the "Documentation"). You may: (a) use the Receiver Software in object code form only as fully integrated into the Receiver in order to operate the Receiver for its usual purpose, (b) use the Computer Software simultaneously on up to three computers and (c) copy the Computer Software for back-up and archival purposes; provided that any copy must contain all of the original Software's proprietary notices. SIRIUS, its partners and suppliers, including without limitation, Microsoft Corporation ("Microsoft"), Dell Products, LP, (f/k/a, ZING Systems, Inc.) on behalf of itself, Dell Inc. and each of the affiliates and subsidiaries of Dell Inc. ("ZING"), and their respective partners and suppliers, retain all rights not expressly granted herein, including without limitation, all world-wide patent, copyright, trademark, trade secret and other proprietary rights associated with the Software. You agree that SIRIUS' partners and suppliers (including Microsoft and ZING) are third party beneficiaries of this EULA and may enforce your performance of its terms. This product is protected by certain intellectual property rights of Microsoft. Use or distribution of such technology outside of this product is prohibited without a license from Microsoft.

2. LICENSE RESTRICTIONS. (a) You must be at least 18 years old to assume the obligations set forth in this EULA. Minors may use the Software and the Documentation only if a parent or legal guardian assumes the obligations set forth in this EULA and thereby assumes full responsibility for the minor's use of the Software and the Documentation.

(b) You may not: (i) permit other individuals to use the Computer Software; (ii) modify, translate, reverse engineer, decompile, extract source code from, disassemble (except to the extent that this restriction is expressly prohibited by law), reproduce, or create derivative works based upon the Software or the Documentation; (iii) copy the Software or the Documentation (except as permitted by Section 1(c)); (iv) rent, lease, publicly display, transfer, or otherwise transfer rights to the Software or the Documentation and/or (v) remove any proprietary notices or labels on the

Software or the Documentation. Any violations of this Section 2(b) will immediately terminate your license to the Software and the Documentation.

(c) You may use the Software and the Documentation only in a manner that complies with all applicable laws in the jurisdictions in which you use the Software and the Documentation, including without limitation, applicable restrictions concerning copyright and other intellectual property rights.

(d) You may use the Software only for your private, non-commercial use. You may not use the Software in any way to provide, or as part of, any commercial service or application. Copies of content files, including without limitation songs and other audio recordings, which are stored and/or transferred using the Software, and which are protected by the copyright laws or related laws of any jurisdiction, are for your own personal use only and you may not publicly perform them or distribute them to third parties.

(e) By storing content on the Receiver, you are making a digital copy. You may not use the Receiver or the Software in an attempt to, or in conjunction with, any device, program or service designed to circumvent technological measures employed to control access to, or the rights in, a content file or other work protected by the copyright laws of any jurisdiction.

(f) The Software embodies a serial copying management system required by the laws of the United States. You may not circumvent or attempt to circumvent this system by any means.

(g) You shall not export or re-export the Software or the Receiver without the appropriate U.S. or foreign government licenses.

(h) MPEG Layer-3 audio coding technology licensed from Fraunhofer IIS and Thomson. Supply of the Receiver and the Software does not convey a license nor imply any right to distribute content created with this product in revenue-generating broadcast systems (terrestrial, satellite, cable and/or other distribution channels), streaming applications (via Internet, intranets and/or other networks), other content distribution systems (pay-audio or audio-on-demand applications and the like) or on physical media (compact discs, digital versatile discs, semiconductor chips, hard drives, memory cards and the like). An independent license for such use is required. For details, please visit http://mp3licensing.com."

3. COMMUNICATIONS FEATURES; USE OF INFORMATION. (a) The Software includes functionality that may automatically communicate information to SIRIUS, its partners and suppliers over the Internet as part of its normal operation. The Software may also contain user-visible features that interact and communicate with internet services operated by SIRIUS, its partners and suppliers. An initial list of the communications features is listed below. The communications features may be changed by any updates of the Software that you install. By installing and/or using the Software and any related updates, you agree to permit the installation and use of the communications features. You are responsible for any telecommunications or other connectivity charges incurred through use of the Software.

(b) Once you install the Software and/or connect the Receiver (wired or wirelessly), the Software may provide SIRIUS and its suppliers with information regarding the Receiver, including electronic identification number of the Receiver (the "ESN"). The Software may also provide SIRIUS and its suppliers with the following non-personally identifying usage information, including, but not limited to: Receiver hardware actions (e.g., keys pressed, reboots, crashes, upgrades, resets), the hardware and software revision numbers on the Receiver, the channels/streams of the SIRIUS Service that you set/delete as presets/favorites on the Receiver, use of parental controls, battery level,

available space on the Receiver, connection method and signal strength. SIRIUS will not combine this utilization information with any personally identifiable information. Instead, this information will be collected and analyzed to evaluate overall performance of the software and the related products, for quality control and product enhancement purposes and to keep statistics on the aggregated anonymous use of the Software and/or the SIRIUS Service. Your personally identifiable information will not be collected in any way through this software, nor will your personally identifiable information held by SIRIUS for other purposes (such as your subscription information) be combined with this utilization data in any way.

4. DIGITAL RIGHTS MANAGEMENT. (a) The Software and the Device use the Microsoft digital rights management technology for Windows Media ("WM-DRM") to protect the integrity of SIRIUS and third party content ("Secure Content") so that the intellectual property, including without limitation, the copyright, in such content is not misappropriated. Portions of the WM DRM software (the "WM-DRM Software") use WM-DRM to transfer or play Secure Content. If the WM-DRM Software's security has been compromised, owners of Secure Content ("Secure Content Owners") may request that Microsoft revoke the WM-DRM Software's right to copy, display, transfer, and/or play Secure Content. Revocation does not alter the WM-DRM Software's ability to play unprotected content. A list of revoked WM-DRM Software is sent to your computer whenever you download a license for Secure Content from the Internet. Microsoft may, in conjunction with such license, also download revocation lists onto your computer on behalf of Secure Content Owners. Secure Content Owners may also require you to upgrade some of the WM-DRM components distributed with the WM-DRM software ("WM-DRM Upgrades") before accessing their content. When you attempt to play such content, WM-DRM Software built by Microsoft may notify you that a WM-DRM Upgrade is required and then ask for your consent before the WM-DRM Upgrade is downloaded. WM-DRM Software used by third parties may do the same. You agree that Microsoft and other third parties may upgrade the WM-DRM Software without notice to you. If you decline an upgrade, you will not be able to access content that requires the WM-DRM Upgrade; provided that, you will still be able to access unprotected content and Secure Content that does not require the upgrade.

(b) You may not take any action to circumvent or defeat the security or content usage rules provided or enforced by the WM-DRM Software. SIRIUS is not responsible for the operation of the WM-DRM Software in any way, including without limitation, revocation of the WM-DRM Software's right to copy, display, transfer, and/or play Secure Content. SIRIUS is not responsible for any communications to or from any Secure Content Owner, or for the collection or use of information by any Secure Content Owner.

5. OWNERSHIP. All title, ownership, rights, and intellectual property rights in and to the Software and the Documentation shall remain in the property of SIRIUS and its licensors. The Software includes Microsoft Windows Media Technology. The Software is protected by the copyright laws of the United States and international copyright treaties.

6. WARRANTIES. (a) SIRIUS warrants that for a period of 90 days from the date of your acquisition the Software if operated as directed, will substantially achieve the functionality described in the Documentation and will be free from defects in material and workmanship. This warranty shall immediately terminate if the Software is used on or in conjunction with hardware or software other than the unmodified version of Receiver which the Software was designed to be used as described in the Documentation, any modifications are made to the Software during the warranty period, if the media is subjected to accident abuse or improper use, and/or the terms of this EULA are breached. SIRIUS does not warrant that use of the Software will be uninterrupted or that the operation of the Software will be error-free or secure. Depending on manufacturer and model of your Receiver, you may or may not be entitled to upgrades of the Receiver Software. Please check your Receiver owner's manual for further information.

(b) SIRIUS LICENSES THE SOFTWARE TO YOU "AS IS", AND TO THE MAXIMUM EXTENT PERMITTED BY APPLICABLE LAW SIRIUS, ITS PARTNERS AND SUPPLIERS (INCLUDING MICROSOFT AND ZING) HEREBY DISCLAIM ALL OTHER WARRANTIES EITHER EXPRESS OR IMPLIED, INCLUDING WITHOUT LIMITATION IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE WITH REGARD TO THE SOFTWARE AND THE DOCUMENTATION. THIS LIMITED WARRANTY GIVES YOU SPECIFIC LEGAL RIGHTS; YOU MAY HAVE OTHER RIGHTS THAT VARY FROM STATE/JURISDICTION TO STATE/JURISDICTION.

(c) SIRIUS' sole liability for a breach of its warranties shall be in SIRIUS' sole discretion: (i) to replace your defective media, (ii) to advise you how to achieve substantially the same functionality with the Software as described in the Documentation through a procedure different from that set forth in the Documentation and/or (iii) if the above remedies are impracticable, to refund the license fee, if any, you paid for the Software. Repaired, corrected or replaced copies of the Software and the Documentation shall be covered by the same limited warranty for the period remaining under the warranty that covered the original copy of the Software or if longer for 30 days after the date SIRIUS either provided you with the repaired or replaced copy of the Software or advised you as to how to operate the Software so as to achieve the functionality described in the Documentation, whichever is applicable. SIRIUS will be obligated to honor its obligations in this Section 6(c) only if you inform SIRIUS of the problem with the Software during the applicable warranty period and provide evidence of the date you acquired the Software.

7. INDEMNIFICATION. (a) You shall defend, indemnify and hold harmless SIRIUS, its officers, directors and employees, from and against any losses, damages, fines and expenses. including without limitation, attorneys' fees and expenses, arising out of or relating to any claims that you have: (i) viewed, downloaded, encoded, compressed, copied or transmitted any in connection with the Software in violation of another party's rights or in violation of any law, or (ii) violated any terms of this EULA and/or the Terms and Conditions.

(b) If you are importing the Software from the United States, you shall defend, indemnify and hold harmless SIRIUS from and against any import and export duties or other claims arising from such importation.

8. LIMITATION OF LIABILITY. NEITHER SIRIUS, ITS PARTNERS, NOR SUPPLIERS (INCLUDING MICROSOFT AND ZING) IS RESPONSIBLE FOR ANY SPECIAL, INCIDENTAL, OR CONSEQUENTIAL DAMAGES OR LOSSES RELATING TO THE USE AND/OR PURCHASE OF THE SOFTWARE, THE DOCUMENTATION, THE RECEIVER AND/OR THE SIRIUS SERVICE, INCLUDING WITHOUT LIMITATION, COMPUTER FAILURE AND/OR MALFUNCTION, WHETHER BASED ON NEGLIGENCE OR OTHERWISE, AND WHETHER OR NOT SIRIUS OR SUCH SUPPLIER (INCLUDING MICROSOFT AND ZING) HAS BEEN ADVISED OF THE POSSIBILITY THEREOF. SIRIUS TOTAL LIABILITY TO YOU AND ANY OTHER PERSONS USING THE RECEIVER, THE SOFTWARE AND/OR THE DOCUMENTATION, REGARDLESS OF THE CAUSE, WILL IN NO EVENT EXCEED THE AMOUNTS THAT YOU HAVE PAID TO SIRIUS FOR THE RECEIVER, THE SOFTWARE AND THE DOCUMENTATION. THIS ALLOCATION OF RISK AND THE DISCLAIMER OF WARRANTIES IS REFLECTED IN SIRIUS' PRICES AND IS A FUNDAMENTAL ELEMENT OF SIRIUS AGREEMENT TO PROVIDE YOU WITH THE SOFTWARE AND THE DOCUMENTATION. YOU MAY HAVE GREATER RIGHTS THAN DESCRIBED ABOVE UNDER YOUR STATE'S LAWS.

9. TERMINATION. (a) This EULA will automatically terminate without notice if you fail to comply with any of its terms.

(b) This EULA may also terminate without notice to you in the event SIRIUS' or any of its partners or suppliers (including Microsoft and ZING) licenses for technology incorporated into the Software terminates.

(c) You may terminate this EULA at any time by providing SIRIUS with written notice of termination to: SIRIUS

Satellite Radio Inc., 1221 Avenue of the Americas, 36th Floor, New York, New York 10020, Attention: My SIRIUS Studio/Stiletto Software Termination.

(d) Upon any termination of this EULA, you shall immediately discontinue use of the Software and shall within three days return to SIRIUS, or certify destruction of, all full or partial copies of the Software, documentation and related materials provided by SIRIUS. Your obligation to pay accrued charges and fees shall survive any termination of this License Agreement.

(e) Except for the license granted in paragraph 1, the terms of this EULA shall survive termination under this paragraph 9.

10. RESOLVING DISPUTES. In order to expedite and control the cost of disputes, you agree that any legal equitable claim (a "Claim") relating to the Software, the Documentation and/or this EULA, will be resolved as follows:

(a) Informal Resolution. You and SIRIUS will first try to resolve any Claim informally. Accordingly, neither you nor SIRIUS may start a formal proceeding (except for Claims described in Section 10(d)) for at least 60 days after one of us notifies the other of a Claim in writing. To initiate a Claim, you must send notice by U.S. mail to: SIRIUS Satellite Radio Inc., 1221 Avenue of the Americas, 36th Floor, New York, New York 10020, Attention: General Counsel. If SIRIUS initiates a Claim, notice will be sent to your address on file with SIRIUS.

(b) Formal Resolution. Except as provided in Section 10(d), if you and SIRIUS cannot resolve a Claim informally, any Claim either of you or SIRIUS asserts will be resolved only by binding arbitration. The arbitration will be conducted under the Commercial Arbitration Rules of the American Arbitration Association (the "AAA Rules") that are in effect at the time the arbitration is initiated and under the rules set forth in this EULA. If there is a conflict between the AAA Rules and this EULA, this EULA will govern. ARBITRATION MEANS THAT YOU WAIVE YOUR RIGHT TO A JURY TRIAL. If you initiate an arbitration, you agree to pay a fee of $125 or, if less and you notify SIRIUS in writing, the amount that you would pay to initiate a lawsuit against SIRIUS in the appropriate court of your state. SIRIUS agrees to pay any additional fee or deposit required by the American Arbitration Association in excess of your filing fee. SIRIUS also agrees to pay the costs of the arbitration proceeding up to a maximum of one-half day (four hours) of hearings. Other fees, such as attorney's fees, expenses, travel to the arbitration and the costs of a proceeding that goes beyond one-half day, will be paid in accordance with the AAA Rules. The arbitration will be held at a location within 100 miles of your residence unless you and SIRIUS both agree to another location. To start the arbitration, you or SIRIUS must do the following things:

(i) Write a demand for arbitration. The demand must include a description of the Claim and the amount of damages sought to be recovered;

(ii) Send three copies of the demand for arbitration plus the appropriate filing fee to: American Arbitration Association, 601 Pennsylvania Avenue, N.W., Suite 700, Washington, D.C. 20004; and

(iii) Send one copy of the demand for arbitration by U.S. mail to SIRIUS Satellite Radio Inc., 1221 Avenue of the Americas, 36th Floor, New York, New York 10020, Attention: General Counsel, or to your address on file with SIRIUS (if SIRIUS starts the arbitration).

(c) Binding Effect. In the arbitration proceeding, the arbitrator must follow applicable law, and any award may be challenged if the arbitrator fails to do so. The arbitrators shall not have the power, jurisdiction or authority to

waive, amend and/or modify any of the terms or provisions of this EULA. The arbitrators shall enforce this EULA in accordance with its terms and provisions.

Otherwise, the arbitrator's decision is final and binding on all parties and may be enforced in any federal or state court that has jurisdiction. A court may sever any portion of this Section 9 that it finds to be unenforceable.

(d) Exceptions. Notwithstanding the foregoing, any: (i) dispute over the validity of intellectual property rights or SIRIUS licenses to operate its business; (ii) Claim based on Section 2(a) above; and (iii) dispute involving a violation of the Communications Act of 1934, 47 U.S.C. §605, or the Electronic Communications Privacy Act, 18 U.S.C. §§2510-2521, may be decided only by a court of competent jurisdiction.

11. MISCELLANEOUS. (a) Notice. Notices to you will be deemed given when deposited in the mail or when sent by email. Notices may be included in statements or other communications to you. SIRIUS may also provide notice to you by telephone, which will be deemed given when a message is left with you, someone answering the telephone at your residence or on an answering machine or voice mail system at your phone number on record with SIRIUS. Your notices to SIRIUS will be deemed given when SIRIUS receives them at 1221 Avenue of the Americas, 36th Floor, New York, New York 10020, Attention: General Counsel.

(b) Applicable Law. The interpretation and enforcement of this EULA shall be governed by the internal laws of the State of New York. This EULA is subject to modification if required by such laws. Notwithstanding the foregoing, Section 10 shall be governed by the Federal Arbitration Act. You agree that the United Nations Convention on Contracts for the International Sale of Goods is specifically excluded from application to this EULA.

(c) Assignment. Except as set forth in this paragraph 11(c), you may not assign your rights and/or obligations under this EULA to any third party. If you sell or otherwise transfer the Receiver as a whole, you may transfer the Receiver Software as fully integrated into the Receiver; provided that you also supply this EULA to the purchaser or recipient of the Receiver, at which time all of your rights under this EULA will immediately cease. SIRIUS may assign its rights and/or obligations under this EULA to any third party without notice for any purpose, including without limitation, in the event of an acquisition, corporate reorganization, merger or sale of substantially all of SIRIUS' assets to another entity. You hereby consent to such assignment.

(d) No Waiver. No failure or delay on the part of SIRIUS, its partners or its suppliers (including Microsoft and ZING) in exercising any right, power or privilege hereunder and no course of dealing by SIRIUS, its partners or its suppliers (including Microsoft and ZING) shall operate as a waiver of any right, power or privilege hereunder.

(e) Other. This EULA constitutes the entire agreement between you and SIRIUS relating to your use of the Software and the Documentation. No salesperson or other representative is authorized to change it for you. If any provision is declared by a competent authority to be invalid, that provision will be deleted or modified to the extent necessary, and the rest of this EULA will remain enforceable.

12. THIRD PARTY LICENSES. The Software contains software, libraries and other tools provided by third parties, which are subject to the restrictions below.

(a) busybox. busybox is distributed under the GNU General Public License. A copy of the GNU General Public License may be found at http://www.gnu.org/copyleft/gpl.html. Portions of the work were modified by Zing Systems, Inc. 2005-2007. The original and modified source code can be found at here. THIS SOFTWARE IS PROVIDED BY THE

AUTHOR(S) "AS IS" AND ANY EXPRESS OR IMPLIED WARRANTIES, INCLUDING, BUT NOT LIMITED TO, THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE ARE DISCLAIMED. (d) FreeType. Portions of this software are copyright © 2006 The FreeType Project (www.freetype.org). All rights reserved.

The FreeType Project LICENSE

2006-Jan-27

Copyright 1996-2002, 2006 by David Turner, Robert Wilhelm, and Werner Lemberg.

Introduction. The FreeType Project is distributed in several archive packages; some of them may contain, in addition to the FreeType font engine, various tools and contributions which rely on, or relate to, the FreeType Project. This license applies to all files found in such packages, and which do not fall under their own explicit license. The license affects thus the FreeType font engine, the test programs, documentation and make files, at the very least. This license was inspired by the BSD, Artistic, and IJG (Independent JPEG Group) licenses, which all encourage inclusion and use of free software in commercial and freeware products alike. As a consequence, its main points are that:

! We don't promise that this software works. However, we will be interested in any kind of bug reports. (`as is' distribution)

! You can use this software for whatever you want, in parts or full form, without having to pay us. (`royalty-free' usage)

! You may not pretend that you wrote this software. If you use it, or only parts of it, in a program, you must acknowledge somewhere in your documentation that you have used the FreeType code. (`credits') We specifically permit and encourage the inclusion of this software, with or without modifications, in commercial products. We disclaim all warranties covering The FreeType Project and assume no liability related to The FreeType Project. Finally, many people asked us for a preferred form for a credit/disclaimer to use in compliance with this license. We thus encourage you to use the following text: Portions of this software are copyright © <2007> The FreeType Project (www.freetype.org). All rights reserved.

Legal Terms

0. Definitions. Throughout this license, the terms `package', `FreeType Project', and `FreeType archive' refer to the set of files originally distributed by the authors (David Turner, Robert Wilhelm, and Werner Lemberg) as the `FreeType Project', be they named as alpha, beta or final release. `You' refers to the licensee, or person using the project, where `using' is a generic term including compiling the project's source code as well as linking it to form a `program' or `executable'. This program is referred to as `a program using the FreeType engine'. This license applies to all files distributed in the original FreeType Project, including all source code, binaries and documentation, unless otherwise stated in the file in its original, unmodified form as distributed in the original archive. If you are unsure whether or not a particular file is covered by this license, you must contact us to verify this.

The FreeType Project is copyright (C) 1996-2000 by David Turner, Robert Wilhelm, and WernerLemberg. All rights reserved except as specified below.

1. No Warranty. THE FREETYPE PROJECT IS PROVIDED `AS IS' WITHOUT WARRANTY OF ANY KIND, EITHER EXPRESS OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. IN NO EVENT WILL ANY OF THE AUTHORS OR COPYRIGHT HOLDERS BE LIABLE FOR ANY DAMAGES CAUSED BY THE USE OR THE INABILITY TO USE, OF THE FREETYPE PROJECT.

2. Redistribution. This license grants a worldwide, royalty-free, perpetual and irrevocable right and license to use, execute, perform, compile, display, copy, create derivative works of, distribute and sublicense the FreeType Project (in both source and object code forms) and derivative works thereof for any purpose; and to authorize others to exercise some or all of the rights granted herein, subject to the following conditions:

! Redistribution of source code must retain this license file (`FTL.TXT') unaltered; any additions, deletions or changes to the original files must be clearly indicated in accompanying documentation. The copyright notices of the unaltered, original files must be preserved in all copies of source files.

! Redistribution in binary form must provide a disclaimer that states that the software is based in part of the work of the FreeType Team, in the distribution documentation. We also encourage you to put an URL to the FreeType web page in your documentation, though this isn't mandatory. These conditions apply to any software derived from or based on the FreeType Project, not just the unmodified files. If you use our work, you must acknowledge us. However, no fee need be paid to us.

3. Advertising. Neither the FreeType authors and contributors nor you shall use the name of the other for commercial, advertising, or promotional purposes without specific prior written permission. We suggest, but do not require, that you use one or more of the following phrases to refer to this software in your documentation or advertising materials: `FreeType Project', `FreeType Engine', `FreeType Library', or `FreeType Distribution'. As you have not signed this license, you are not required to accept it. However, as the FreeType Project is copyrighted material, only this license, or another one contracted with the authors, grants you the right to use, distribute, and modify it. Therefore, by using, distributing, or modifying the FreeType Project, you indicate that you understand and accept all the terms of this license.

4. Contacts. There are two mailing lists related to FreeType:

! freetype@nongnu.org. Discusses general use and applications of FreeType, as well as future and wanted additions to the Library and distribution. If you are looking for support, start in this list if you haven't found anything to help you in the documentation.

! freetype-devel@nongnu.org. Discusses bugs, as well as engine internals, design issues, specific licenses, porting, etc. Our home page can be found at http://www.freetype.org

(e) gpg.

(f) lpng128

COPYRIGHT NOTICE, DISCLAIMER, and LICENSE:

If you modify libpng you may insert additional notices immediately following this sentence.

libpng versions 1.2.6, August 15, 2004, through 1.2.8, December 3, 2004, are Copyright (c) 2004 Glenn Randers-Pehrson, and are distributed according to the same disclaimer and license as libpng-1.2.5 with the following individual added to the list of Contributing Authors:

Cosmin Truta

libpng versions 1.0.7, July 1, 2000, through 1.2.5, October 3, 2002, are Copyright (c) 2000-2002 Glenn Randers-Pehrson, and are distributed according to the same disclaimer and license as libpng-1.0.6 with the following individuals added to the list of Contributing Authors:

Simon-Pierre Cadieux
Eric S. Raymond
Gilles Vollant

and with the following additions to the disclaimer: There is no warranty against interference with your enjoyment of the Library or against infringement. There is no warranty that our efforts or the Library will fulfill any of your particular purposes or needs. This Library is provided with all faults, and the entire risk of satisfactory quality, performance, accuracy, and effort is with the user.

libpng versions 0.97, January 1998, through 1.0.6, March 20, 2000, are Copyright (c) 1998, 1999, 2000 Glenn Randers-Pehrson, and are distributed according to the same disclaimer and license as libpng-0.96, with the following individuals added to the list of Contributing Authors:

Tom Lane
Glenn Randers-Pehrson
Willem van Schaik

libpng versions 0.89, June 1996, through 0.96, May 1997, are Copyright (c) 1996, 1997 Andreas Dilger Distributed according to the same disclaimer and license as libpng-0.88, with the following individuals added to the list of Contributing Authors:

John Bowler
Kevin Bracey
Sam Bushell
Magnus Holmgren
Greg Roelofs
Tom Tanner

libpng versions 0.5, May 1995, through 0.88, January 1996, are Copyright (c) 1995, 1996 Guy Eric Schalnat, Group 42, Inc.

For the purposes of this copyright and license, "Contributing Authors" is defined as the following set of individuals:

Andreas Dilger
Dave Martindale
Guy Eric Schalnat
Paul Schmidt
Tim Wegner

The PNG Reference Library is supplied "AS IS". The Contributing Authors and Group 42, Inc. disclaim all warranties, expressed or implied, including, without limitation, the warranties of merchantability and of fitness for any purpose.

The Contributing Authors and Group 42, Inc. assume no liability for direct, indirect, incidental, special, exemplary, or consequential damages, which may result from the use of the PNG Reference Library, even if advised of the possibility of such damage.

Permission is hereby granted to use, copy, modify, and distribute this source code, or portions hereof, for any purpose, without fee, subject to the following restrictions:

1. The origin of this source code must not be misrepresented.

2. Altered versions must be plainly marked as such and must not be misrepresented as being the original source.

3. This Copyright notice may not be removed or altered from any source or altered source distribution.

The Contributing Authors and Group 42, Inc. specifically permit, without fee, and encourage the use of this source code as a component to supporting the PNG file format in commercial products. If you use this source code in a product, acknowledgment is not required but would be appreciated.

A "png_get_copyright" function is available, for convenient use in "about" boxes and the like:

printf("%s",png_get_copyright(NULL));

Also, the PNG logo (in PNG format, of course) is supplied in the files "pngbar.png" and "pngbar.jpg (88x31) and "pngnow.png" (98x31).

Libpng is OSI Certified Open Source Software. OSI Certified is a certification mark of the Open Source Initiative.

The contributing authors would like to thank all those who helped with testing, bug fixes, and patience. This wouldn't have been possible without all of you.

Thanks to Frank J. T. Wojcik for helping with the documentation.
