

WARHAMMER LEGENDS

# LEGENDS FIELD MANUAL

VERSION 1.1

**Welcome to the Legends Field Manual. This document contains the points values for all of your favourite Warhammer Legends datasheets, and can be used in your games of Warhammer 40,000.**

You can use this document to determine the points (pts) value of Legends units in your army. Each entry lists the increments to a unit's size that incur different points costs. This may change with the addition of each individual model (e.g. 1 model, 2 models, 3 models, etc.) or it may be presented with a lower and upper limit to a unit's Starting Strength (e.g. one cost for 5 models, another cost for 10 models). In the latter case, your units can contain a number of models in between these limits, but you must still pay the maximum points cost for a unit that starts the game with more than its minimum number of models. You can learn more about using points to muster your army on pages 55-56 of the Core Rules. New and revised entries are marked in **red**.
