Getting started

Assembly, SIM card, battery, turning on, help, calls.

More information and downloads are available at www.sonyericsson.com/support.

Assembly

To use your phone

- 1 Insert the SIM card and the battery.
- 2 Charge the battery.
- 3 Turn on your phone.

SIM card

When you register as a subscriber with a network operator, you get a SIM (Subscriber Identity Module) card. The SIM card contains a computer chip that keeps track of items such as your phone number, the services included in your subscription, and names and numbers in your contacts.

 *Save contact information on your SIM card before removing it from another phone; for example, contacts may be saved in the phone memory.*

PIN

You may need a PIN (Personal Identity Number) for your SIM card to start your phone and activate services. When you enter your PIN, each digit appears as *, unless the PIN starts with the same digits as an emergency number, for example 112. This allows for emergency calls without entering a PIN. Press  to correct mistakes.

 *If you enter the wrong PIN three times in a row, PIN blocked appears. To unblock it, you need to enter your PUK (Personal Unblocking Key) ► 78 SIM card lock.*

Battery

Some functions use more battery power than others and may cause a need for more frequent re-charging. If talk time or standby time become noticeably shorter, you may have to replace the battery. Only use approved batteries from Sony Ericsson ► 89 Battery.

SIM card and battery

To insert SIM card and battery

- 1 Remove the battery cover.
- 2 Slide the SIM card into its holder with the contacts facing down.
- 3 Insert the battery with the label side up and the connectors facing each other.
- 4 Slide the battery cover into place.

To charge the battery

- 1 Connect the charger plug to the phone with the symbol facing upwards.
- 2 It may take up to 30 minutes before the battery icon appears.
- 3 Wait approximately 2.5 hours or until the battery icon indicates a full charge. Press a key to activate the screen.
- 4 Pull out the charger plug by tilting the plug upwards.

Turning on your phone

Make sure the phone is charged and a SIM card inserted before turning it on. After turning on, use the setup wizard to quickly and easily prepare for use.

To turn on the phone

- 1 Press and hold down ①. The first startup may take a few minutes.
- 2 Select to use the phone in:
 - Normal mode – full functionality
 - Flight mode – limited functionality with network, FM radio, Bluetooth™ transceivers off ► 7 Flight mode menu.
- 3 Enter your SIM card PIN, if requested.
- 4 At first startup, select the language for your phone menus.
- 5 ► Yes for the setup wizard to help you.
- 6 Follow the instructions to complete setup.

 *If predefined settings for Internet and MMS exist in your phone, you may not need more settings. If you use Settings download, you must register the phone at Sony Ericsson. A text message is sent. No personal data will be transferred to or processed by Sony Ericsson. Contact your network operator or service provider for more information.*

Help in your phone

Help and information is available in your phone at any time.

To use the setup wizard

- Settings ► the General tab ► Setup wizard and select an option:
 - Settings download

Settings download

Automatically set up functions in your phone that use the Internet; Internet, picture messaging, email, My friends, synchronization, update service, blog and streaming.

You can use **Settings download** if your SIM supports the service, your phone is connected to a network, it is started in normal mode and does not already have predefined settings.

 *Contact your network operator or service provider for more information.*

Flight mode menu

If you turn on the phone and **Flight mode menu** is activated, select from **Normal mode** with full functionality or **Flight mode** with limited functionality. Network, radio and Bluetooth transceivers are turned off to prevent disturbance to sensitive equipment. You can, for example, play music or write a text message to send later but not make calls in an aeroplane.

 *Follow onboard regulations, flight crew instructions for use of electronic devices.*

To view Flight mode menu options

Shortcuts

Use keypad shortcuts to quickly go to menus or navigation key shortcuts to quickly reach certain functions. You can edit the navigation key shortcuts to suit your needs.

Using keypad shortcuts

In standby, go to menus by pressing  and then enter the number of the menu. Menu numbering starts from the top left icon and moves across and then down row by row, for example, press  for the fifth menu item. For the tenth, eleventh and twelfth items, press ,  and  respectively. To go back to standby, press and hold down .

Using navigation key shortcuts

In standby, go to a shortcuts menu or function by pressing , ,  or .

To edit a navigation key shortcut

► Settings ► General tab ► Shortcuts and select a shortcut ► Edit.

Phone language

Select the language to use in the phone menus or when writing text.

To change the phone language

- ▶ Settings ▶ General tab ▶ Language
- ▶ Phone language. Select a language.

In standby, you can also press
Ⓢ 8888 Ⓢ for automatic language selection.

Ⓢ 0000 Ⓢ for English.

 Most SIM cards automatically set the menu language to the language of the country where you bought your SIM card. If not, the predefined language is English.

To select writing language

- ▶ Settings ▶ the General tab
▶ Language ▶ Writing language.
- Scroll to the language to use and mark it. ▶ Save to exit the menu.

Entering letters

Enter letters in one of the following ways (text input methods), for example, when writing messages:

- Multitap text input
- T9™ Text Input

To change the text input method

Before, or when entering letters, press and hold down  to change the method.

Options when entering letters

- ▶ More for options when writing a message.

To enter letters using multitap input

- Press  -  repeatedly until the desired character appears.
- Press  to shift between capital and lower-case letters.
- Press and hold down  -  to enter numbers.
- Press  to delete letters or numbers.
- Press  for the most common punctuation marks.
- Press  to add a space.

T9™ Text Input

The T9 Text Input method uses a built-in dictionary to recognize the most commonly used word for each sequence of key presses. This way, you press each key only once, even if the letter you want is not the first letter on the key.

To enter letters using T9 Text Input

- To enter text, you have to be in a function where text input is possible, for example, ▶ Messaging ▶ Write new ▶ Text message.
- For example, to write the word “Jane”, press , , , .

- 3 If the word shown is the one you want, press **(#→?)** to accept and add a space. To accept a word without adding a space, press **(↵)**. If the word shown is not the one you want, press **(⊕)** or **(⊖)** repeatedly to view alternative words. Accept a word and add a space by pressing **(#→?)**.
- 4 Continue writing the message. To enter a punctuation mark, press **(1)** and then **(⊕)** or **(⊖)** repeatedly, press **(#→?)** to accept and add a space.

To add words to the T9 Text Input dictionary

- 1 When entering letters ► More ► Spell word.
- 2 Edit the word by using multitap input. Use **(⊕)** and **(⊖)** to move the cursor between the letters. To delete a character, press **(C)**. To delete the entire word, press and hold down **(C)**.
When you have edited the word ► Insert. The word is added to the T9 Text Input dictionary. Next time you enter this word using T9 Text Input, it appears in alternative words.

Next word prediction

When writing a message, you can use T9 Text Input to predict the next word, if previously used in a sentence.

To turn next word prediction on/off

When entering letters ► More
► Writing options ► Next word pred.

To use next word prediction

When entering letters, press **(#→?)** to accept or continue.

Activity menu

You can open the activity menu almost anywhere in the phone to view and handle new events, and access bookmarks and shortcuts.

To open and close the activity menu

Press **(☰)**.

Activity menu tabs

- **New events** – such as missed calls and messages. When a new event occurs, the tab appears. Press **(C)** to dismiss an event from the event tab. New events can also be set to appear as pop-up text instead, ► Settings ► the General tab ► New events ► Pop-up.
- **Running apps** – applications that are running in the background. Select an application to return to it or press **(C)** to end it.

- **My shortcuts** – add, delete and change the order of shortcuts. When you select a shortcut and the application opens, other programs are closed or minimized.
- **Internet** – your Internet bookmarks. When you select a bookmark and the browser opens, other programs are closed or minimized.

File manager

Use the file manager to handle items such as pictures, videos, music, themes, Web pages, games and applications saved in the phone memory or on a Memory Stick Micro™ (M2™) memory card.

 You may have to separately purchase a memory card for your phone.

Memory Stick Micro™ (M2™)

A memory card adds more storage space to your phone to save, for example, pictures or music. It can also be used as a portable memory, compatible with other devices like printers and computers.

To insert and remove a memory card

- 1 Open the cover and insert as shown (with the contacts facing up).
- 2 Press the edge of the memory card to release and remove it.

You can also move and copy files between the phone, a computer and a memory card. If you have a memory card inserted, files are automatically saved to it first and then to the phone memory.

Create subfolders to move or copy files to. Games and applications can be moved within the **Games** and **Applications** folders and from the phone memory to a memory card. Unrecognized files are saved in the **Other** folder. When handling files, you can select several or all files in a folder at the same time for all items except **Games** and **Applications**.

All files are automatically saved in the phone memory. If all available memory is full, you cannot save any files until content is removed.

File manager menu tabs

The file manager is divided into three tabs, and icons are included to indicate where the files are saved.

- **All files** – all content in the phone memory and on a Memory Stick Micro™ (M2™).
- **On Memory Stick** – all content on a Memory Stick Micro™ (M2™).
- **In phone** – all content in the phone memory.

File information

View file information by highlighting it ► **More** ► **Information**. Items that are downloaded, or received using one of the available transfer methods, may be copyright-protected. If a file is protected, you may not be able to copy or send it. Such a file has a key symbol.

Calling

Calls, video calls, contacts, voice control, call options.

Making and receiving calls

Before you can make or receive any calls, you must turn on your phone and be within range of a network.

► **6** *Turning on your phone.* To make a video call ► **21** *Video call.*

Networks

When you turn on the phone, it automatically selects your home network if this is within range. If it is not within range, you may use another network, provided your network operator has an agreement that allows you to do so. This is called roaming.

Select the network to use, or you can add a network to your preferred networks. You can also change the order in which networks are selected during an automatic search.

To view available network options

► **Settings** and use ⌚ or ⌚ to scroll to the **Connectivity** tab ► **Mobile networks**.

Your phone also switches automatically between GSM and 3G (UMTS) networks depending on availability. Some network operators allow you to switch networks manually, as searching for unavailable networks consumes battery power.

To switch networks

- 1 ► Settings ► Connectivity ► Mobile networks ► GSM/3G networks.
- 2 ► GSM and 3G (automatic) or ► GSM only.

For more information, contact your network operator.

To make a call

- 1 Enter a phone number (with international country code and area code, if applicable).
- 2 ► Call to make a voice call or ► More to view options, such as Make video call ► 21 Video call.
- 3 ► End call to end the call.

 You can call numbers from your contacts and call list ► 23 Contacts, and ► 25 Call list. You can also use your voice to make calls ► 26 Voice control.

To make international calls

- 1 Press and hold down  until a + sign appears.
- 2 Enter the country code, area code (without the first zero) and phone number ► Call to make a voice call or ► More ► Make video call.

To re-dial a number

If a call connection fails and Retry? appears ► Yes.

Do not hold the phone to your ear when waiting. When the call connects, the phone gives a loud signal, unless muted.

To answer or reject a call

► Answer or ► Busy.

To turn off the microphone

- 1 Press and hold down .
- 2 To resume the conversation, press and hold down  again.

To turn the loudspeaker on or off during a voice call

► More ► Turn on speaker or Turn off speaker.

Do not hold the phone to your ear when using the loudspeaker. This could damage your hearing.

To change the ear speaker volume

Press  to increase or  to decrease the ear speaker volume during a call.

Missed calls

When the activity menu is set to default, missed calls appear in the **New events** tab in standby. If pop-up is set to default, **Missed calls**: appears in standby ➤ **16 Activity menu**.

To check missed calls from standby

- If activity menu is set to default: Press  and use  or  to scroll to the **New events** tab and use  or  to select a number ► **Call** to call.
- If pop-up is set to default: ► **Calls** and use  or  to scroll to the **Missed** tab. Scroll  or  to select a number ► **Call** to call.

Emergency calls

Your phone supports international emergency numbers, for example, 112, 911. These numbers can normally be used to make emergency calls in any country, with or without a SIM card inserted, if a 3G (UMTS) or GSM network is within range.

In some countries, other emergency numbers may also be promoted. Your network operator may therefore have saved additional local emergency numbers on the SIM card.

To make an emergency call

Enter 112 (the international emergency number) ► **Call**.

To view your local emergency numbers

- **Contacts** ► **More** ► **Options**
- **Special numbers** ► **Emergency nos.**

Video call

See a person on screen during calls.

Before you start

To make a video call, both you and the person you are calling need a subscription that supports the 3G (UMTS) service, and you need to be within range of a 3G (UMTS) network. A 3G (UMTS) service is available when the 3G icon appears in the status bar.

Video call demo mode

You can use most video call functions without making a call, for example, to prepare a camera view before calling.

- **Video call**.

To make a video call

When a 3G (UMTS) service is available, you can make a video call in one of the following ways:

- Enter a phone number (international prefix and area code if applicable)
 - ▶ More ▶ Make video call.
- ▶ Contacts and select the contact to call. Use ☺ or ☹ to select a number
 - ▶ More ▶ Make video call.
- ▶ Video call ▶ Call.... ▶ Contacts to retrieve a phone number ▶ Call or enter a phone number ▶ Call.

To zoom the outgoing video in or out

Press ☺ to zoom in the outgoing video and press ☹ to zoom out.

To accept an incoming video call

▶ Answer.

To end a video call

▶ End call.

Video call options

▶ More for the following options:

- **Switch camera** – to switch between the main and video call cameras. Use the main camera to show a full image of your surroundings to the recipient.

- **Stop camera/Start camera** – turn the video camera off or on. An alternative picture is shown when off.
- **Save picture** – save the image shown in the large view, for example, the incoming caller image.

Voicemail

If your subscription includes an answering service, callers can leave a voicemail message when you cannot answer a call.

Contact your network operator for your voicemail number or for more information.

To call your voicemail service

Press and hold down **(1)**. If you have not entered a voicemail number, ► **Yes** and enter the number.

To edit your voicemail number

► **Messaging** ► **Settings** ► **Voicemail number**.

Voice control

Manage calls with your voice by creating voice commands to:

- Voice dial – call someone by saying their name.
- Activate voice control by saying a “magic word”.
- Answer and reject calls when using a handsfree.

Before voice dialling

Activate the voice dialling function and record your voice commands. An icon appears next to a phone number that has a voice command.

To activate voice dialling and record names

- 1 ► Settings ► the General tab ► Voice control ► Voice dialling ► Activate ► Yes ► New voice and select a contact.
- 2 If the contact has more than one number, use ☺ and ☻ to view the numbers. Select the number to add the voice command to. Record a voice command such as “John mobile”.
- 3 Instructions appear. Wait for the tone and say the command to record. The voice command is played back to you.
- 4 If the recording sounds OK ► Yes. If not ► No and repeat step 3.
To record another voice command for a contact ► New voice ► Add again and repeat steps 2-4 above.

Caller name

Hear your recorded contact name when you receive a call from that contact.

To turn the caller name on or off

- Settings ► the General tab ► Voice control ► Play caller name.

Voice dialling

Start voice dialling from standby using the phone, a portable handsfree, a Bluetooth headset or by saying your magic word.

To make a call

- 1 From standby, press and hold down one of the volume keys.
- 2 Wait for the tone and say a recorded name, for example “John mobile”. The name is played back to you and the call is connected.

To make a call with a handsfree

From standby, press and hold down the handsfree button, or press the Bluetooth headset button.

The magic word

Record and use a voice command as a magic word to activate voice control without pressing any keys. The magic word can only be used with a handsfree or a Bluetooth headset.

Choose a long, unusual word or phrase that can easily be distinguished from ordinary background speech.

To activate and record the magic word

- 1 ► Settings ► the General tab ► Voice control ► Magic word ► Activate.
- 2 Instructions appear. ► Continue. Wait for the tone and say the magic word.
- 3 ► Yes to accept or ► No to record a new magic word.
- 4 Instructions appear. ► Continue and select the environments in which your magic word is to be activated.

Voice answering

Answer or reject incoming calls by using your voice, when using a handsfree.

 You can use a MIDI, WAV (16 kHz), EMY or IMY file as a ringtone with voice answering.

To activate voice answering and record voice answer commands

- 1 ► Settings ► the General tab ► Voice control ► Voice answer ► Activate.
- 2 Instructions appear. ► Continue. Wait for the tone and say “Answer”, or another word.
- 3 ► Yes to accept or ► No for a new recording.
- 4 Instructions appear ► Continue. Wait for the tone and say “Busy”, or another word.

- 5 ► Yes to accept or ► No for a new recording.
- 6 Instructions appear. ► Continue and select the environments in which voice answering is to be activated.

To answer or reject a call using voice commands

When the phone rings, say:

- “Answer” to connect the call.
- “Busy” to reject the call.

To edit your voice commands

Email

Read your email messages in your phone at any time. Write a message, attach a high-resolution camera picture, sound recording or video clip, and send it to your friends or colleagues. You can also reply to and forward email in your phone, just as you can on your computer.

The email address that you use on your computer can also be used in your phone. To do this, your phone needs the same email settings as used by your computer for email address. To use your computer email address in your phone, do one of the following:

Receive settings automatically

The easiest way is to have settings sent directly to your phone. Use Internet on your computer to go to www.sonyericsson.com/support.

Entering settings manually

- You can ask your email provider for settings information. An email provider is the person or company who provided your email address, for example, your IT administrator at work or an Internet provider.
- You may have a document at home from your email provider with the settings information.
- You may find the information in your computer email program settings.

What information do I need?

The minimum you need is the following:

Setting types	Examples
Connection type	<i>POP3 or IMAP4</i>
Email address	<i>joe.smith@example.com</i>
Incoming server	<i>mail.example.com</i>
Username	<i>jsmith</i>
Password	<i>zX123</i>
Outgoing server	<i>mail.example.com</i>

 *There are many different email providers. Their terminology and required information may differ. Not all service providers allow email access.*

Help in your phone

There are also setup instructions and help information as you enter settings.

To enter email settings

- 1 ► Messaging ► Email ► Settings.
- 2 After settings are entered, ► Inbox ► More ► Send & receive to access your email.

When settings are entered, your phone can connect to an email server to send and receive email messages.

For more information, contact your email provider or see the *User guide* with *additional information* at www.sonyericsson.com/support.

To create an email account

- 1 ► Messaging ► Email ► Settings ► New account.
- 2 Enter a name for the account ► OK. For help ► Setup instructions or press  to a setting ► Info.
- 3 Scroll to a setting and enter the following minimum required settings:

- **Email alert** – select the alert sound for new messages.
- **Connect using** – select a data account (provided by your network operator, ► Info).
- **Email address** – enter your email address.
- **Connection type** – select POP3 or IMAP4.
- **Incoming server** – enter the server name.
- **Username** – enter the username for the email account.
- **Password** – enter the password for the email account.
- **Outgoing server** – enter the server name.

To enter advanced email account settings (optional in most cases)

- 1 ► Messaging ► Email ► Settings.
- 2 Select an account to edit ► More ► Edit account ► Advanced settings.
- 3 Press  to select and enter settings, if required by your email provider, for example, Check interval.

To receive and read email messages

Transferring music

Disc2Phone computer software and USB drivers are included on the CD that comes with the phone. Use Disc2Phone to transfer music from CDs or your computer to the phone memory or a Memory Stick Micro™ (M2™) in your phone.

Before you start

The following are minimum operating system requirements for using Disc2Phone on your computer:

- Windows 2000 SP4 or
- XP Home, or XP Professional SP1.

To install Disc2Phone

- 1 Turn on your computer and insert the CD that came with your phone or visit www.sonyericsson.com/support. The CD starts automatically and the installation window opens.
- 2 Select a language and click **OK**.
- 3 Click *Install Disc2Phone* and follow the instructions.

To use Disc2Phone

- 1 Connect the phone to a computer with the USB cable that came with your phone and select **File transfer**. The phone turns off and prepares to transfer files. For more information
 - ▶ **71 Transferring files using the USB cable.**
- 2 **Computer:** Start/Programs/Disc2Phone.
- 3 For details on transferring music, please refer to Disc2Phone Help. Click **?** in the top right corner of the Disc2Phone window.

Do not remove the USB cable from the phone or computer during transfer, as this may corrupt a Memory Stick Micro™ (M2™) or the phone memory. You cannot view the transferred files in your phone until you have removed the USB cable from the phone.

- 4 You can obtain CD information (for example, artist, track) via Disc2Phone if you are connected to the Internet and extracting music from a CD.

*For safe disconnection of the USB cable in file transfer mode, right-click the removable disk icon in Windows Explorer and select **Eject**.*

More information about moving files to your phone is available at www.sonyericsson.com/support.

Bluetooth™ wireless technology

The Bluetooth function makes wireless connection to other Bluetooth devices possible. You can:

- Connect to handsfree devices.
- Connect to stereo headsets.
- Connect to several devices at the same time.
- Connect to computers and access the Internet.
- Synchronize information with computers.
- Use remote control computer applications.
- Use media viewer accessories.
- Exchange items and play multiplayer games.

We recommend a range within 10 metres, with no solid objects in between, for Bluetooth communication.

Before you start

- Turn on the Bluetooth function to communicate with other devices.
- Add the Bluetooth devices to communicate with to your phone.

 Please check if local laws or regulations restrict the use of Bluetooth wireless technology. If Bluetooth wireless technology is not allowed, you must ensure that the Bluetooth function is turned off. The maximum allowed Bluetooth radio output power in the phone is automatically adjusted according to possible local restrictions. This means range may vary.

To turn the Bluetooth function on

- ▶ Settings ▶ the Connectivity tab
- ▶ Bluetooth ▶ Turn on.

Adding devices to your phone

Enter a passcode to set up a secure link between your phone and the device. Enter the same passcode on the device when prompted. A device with no user interface, such as a handsfree, will have a predefined passcode. Consult the device User guide for more information.

 Make sure that the device you want to add has the Bluetooth function activated and visible.

To add a device to your phone

- 1 ▶ Settings ▶ the Connectivity tab
- ▶ Bluetooth ▶ My devices ▶ New device to search for available devices. Make sure the other device is visible.

- 2 Select a device from the list.
- 3 Enter a passcode, if required.

To allow connection or edit your device list

- 1 ▶ Settings ▶ the Connectivity tab
- ▶ Bluetooth ▶ My devices and select a device from the list.
- 2 ▶ More to view a list of options.

To add a Bluetooth handsfree

- 1 ▶ Settings ▶ the Connectivity tab
- ▶ Bluetooth ▶ Handsfree.
- 2 ▶ Yes if you are adding a Bluetooth handsfree for the first time or ▶ My handsfree ▶ New handsfree ▶ Add if you are adding another Bluetooth handsfree. Ensure that your handsfree is in the correct mode. Consult the device User guide for more information.

Power save

Turn on to reduce power consumption by optimizing your phone for use with a single Bluetooth device. Turn off to connect with several Bluetooth devices at the same time.

To save power

- ▶ Settings ▶ the Connectivity tab
- ▶ Bluetooth ▶ Powersave ▶ On.

Phone name

Enter a name for your phone to be shown when other devices find it.

To enter a phone name

- ▶ Settings ▶ the Connectivity tab
- ▶ Bluetooth ▶ Phone name.

Visibility

Choose to make your phone visible to other Bluetooth devices. If your phone is set to hide, only devices in ▶ Settings ▶ the Connectivity tab ▶ Bluetooth ▶ My devices are able to find your phone via Bluetooth wireless technology.

To show or hide your phone

- ▶ Settings ▶ the Connectivity tab
- ▶ Bluetooth ▶ Visibility ▶ Show phone or Hide phone.

Exchanging items

Send or receive items using Bluetooth wireless technology as the transfer method. Choose a device from the list of found devices.

To send an item

- 1 Select an item, for example ▶ Contacts and select a contact.
- 2 ▶ More ▶ Send contact ▶ Via Bluetooth.
- 3 Select the device to send the item to ▶ Select.

To receive an item

- 1 ▶ Settings ▶ the Connectivity tab ▶ Bluetooth ▶ Turn on.
- 2 ▶ Visibility ▶ Show phone.
- 3 When you receive an item, follow the instructions that appear.

Transferring sound

Transfer the sound for calls when using a Bluetooth handsfree.

You can also transfer the sound for calls using the keypad or the handsfree button as follows:

- Press the handsfree button for sound in handsfree.
- Press a phone button or key (if set to In phone) for sound in phone.
- Press any button (if set In handsfree) for the sound in handsfree.

To transfer sound when using a Bluetooth handsfree

To transfer sound when answering a call with a handsfree

- 1 ▶ Settings ▶ the Connectivity tab ▶ Bluetooth ▶ Handsfree ▶ Incoming call.
- 2 ▶ In phone to direct to the phone or ▶ In handsfree to direct to the handsfree.

Remote control

Use your phone as a remote control device to control computer applications such as a media player or Microsoft® PowerPoint® presentations or devices that support Bluetooth HID Profile.

To select remote control

- 1 ➤ 68 *To add a device to your phone, if required.*
- 2 ▶ Entertainment ▶ Remote control.
- 3 Select an application to use and the computer or device to connect to.

File transfer

If your computer supports Bluetooth wireless technology, you can install the Sony Ericsson PC Suite to synchronize, transfer files, use the phone as modem and more via Bluetooth communication. Install the Sony Ericsson PC Suite from the CD that came with the phone or download it at www.sonyericsson.com/support. The PC Suite also includes help.

Infrared port

If your computer supports infrared, you can install the Sony Ericsson PC Suite on your computer to synchronize, transfer files, use the phone as modem and more via infrared. Install the Sony Ericsson PC Suite from the CD

that came with the phone or download it at www.sonyericsson.com/support. The PC Suite also includes help.

You can also use the infrared port as a transfer method with compatible devices, for example, to synchronize calendar items ➤ 66 *Synchronizing*.

Your phone supports infrared speeds up to 1 Mbps. When connecting to a computer, refer to the computer's user documentation.

To turn the infrared port on

- ▶ Settings ▶ the Connectivity tab
- ▶ Infrared port ▶ On or 10 minutes to turn it on for 10 minutes.

To connect two devices

- 1 Turn on infrared in both devices.
- 2 Make sure the infrared port on your phone is facing the infrared port on the other device with a maximum distance of 20 cm.

To send an item using the infrared port (for example a contact)

- 1 Turn on infrared in both devices.
 - ▶ Contacts and select a contact.
- 2 ▶ More ▶ Send contact ▶ Via infrared.

Transferring files using the USB cable

Connect your phone to a computer, via the USB cable, to use your phone in one of the following: **File transfer** or **Phone mode**.

File transfer

Drag and drop files between phone and computer in Microsoft Windows Explorer.

Use Sony Disc2Phone (music transfer) or Adobe Photoshop Album Starter Edition (picture transfer/storage). These applications are found on the CD that comes with the phone, or visit www.sonyericsson.com/support and download the applications.

Only use the USB cable that comes with the phone, and connect the USB cable directly to your computer. Do not remove the USB cable from the phone or computer during file transfer as this may corrupt the phone memory or a memory card.

To use file transfer mode

- 1 Connect the USB cable to the phone and the computer.

- 2 **Phone:** Select **File transfer** or **▶ Settings ▶ the Connectivity tab ▶ USB ▶ USB connection ▶ File transfer**. The phone shuts down.
- 3 Wait until your phone memory and memory card, if inserted, appear as external disks in Windows Explorer. You can use:
 - Windows Explorer to drag and drop files between phone and computer.
 - Sony Disc2Phone to transfer music to your phone or memory card.
 - Adobe Photoshop Album Starter Edition, to transfer and organize pictures on your computer.

To disconnect the USB cable safely

- 1 When using file transfer mode, right-click the removable disk icon in Windows Explorer and select Eject.
- 2 Remove the USB cable from your phone.

Phone mode

Synchronize contacts and calendar, transfer files, use the phone as modem and more from your computer.

Applications supported in phone mode include: Synchronization, File manager and Mobile Networking Wizard. For other applications, use the file transfer mode.

You need to install and use Sony Ericsson PC Suite, included on the CD that came with the phone, or visit www.sonyericsson.com/support.

Your computer needs to have one of the following operating systems to be able to use this feature: Windows® 2000 with SP3/SP4, Windows XP (Pro and Home) with SP1/SP2.

USB drivers are installed automatically with the PC Suite software.

To use phone mode

- 1 **Computer:** Install the Sony Ericsson PC Suite from the CD that came with your phone.
- 2 **Computer:** Start PC Suite from Start/Programs/Sony Ericsson/PC Suite.
- 3 Connect the USB cable to the phone and the computer.
- 4 **Phone:** Select **Phone mode** or
▶ **Settings** ▶ the **Connectivity** tab
▶ **USB** ▶ **USB connection** ▶ **Phone mode**.
- 5 **Computer:** Wait while Windows installs the required drivers.
- 6 **Computer:** When PC Suite has found your phone you are notified.
All applications that you can use with your connected phone are found in the Sony Ericsson PC Suite.

Update service

Always keep your phone updated with the latest software to improve performance. You do not lose personal or phone information, for example messages or settings during an update.

There are two ways to update your phone:

- Over the air via your phone.
- Via the provided USB cable and an Internet-connected computer.

The update service requires data access (GPRS). Your operator will provide you with a subscription with data access and price information.

Before you start

If required settings are not in your phone ➤ **62 Settings**.

To use Update service over the air

- 1 ▶ **Settings** ▶ the **General** tab ▶ **Update service**.
- 2 ▶ **Search for update** to search for the latest available software. Start the update process by following the installation instructions, or ▶ **Software version** to show the current software in your phone, or ▶ **Reminder** to set when to search for new software.

To use Update service via a computer

- 1 Visit www.sonyericsson.com/support.
- 2 Select a region and country.
- 3 Enter the product name.
- 4 Select Sony Ericsson Update Service and follow the instructions.

SIM card lock

The SIM card lock protects your subscription, but not the phone itself, from unauthorized use. If you change SIM cards, your phone still works with the new SIM card.

Most SIM cards are locked at the time of purchase. If the SIM card lock is on, you have to enter a PIN (Personal Identity Number) every time you turn on your phone.

If you enter your PIN incorrectly three times in a row, the SIM card is blocked. This is indicated by the message **PIN blocked**. To unblock it, you need to enter your PUK (Personal Unblocking Key). Your PIN and PUK are supplied by your network operator. You can

edit your PIN and select a new four- to eight-digit PIN.

*If the message **Codes do not match** appears when you edit your PIN, you entered the new PIN incorrectly. If the message **Wrong PIN** appears, followed by **Old PIN:**, you entered your old PIN incorrectly.*

To unblock your SIM card

- 1 When **PIN blocked** appears, enter your PUK ► **OK**.
- 2 Enter a new four- to eight-digit PIN ► **OK**.
- 3 Re-enter the new PIN to confirm ► **OK**.

To edit your PIN

- 4 Re-enter the new PIN to confirm ► **OK**.

To turn the SIM card lock on or off

- 1 ► **Settings** ► the **General tab** ► **Security** ► **Locks** ► **SIM protection** ► **Protection** and select **On** or **Off**.
- 2 Enter your PIN ► **OK**.

Phone lock

Protect your phone against unauthorized use if it is stolen and the SIM card is replaced. You can change the phone lock code (0000) to any four- to eight-digit personal code.

Automatic phone lock

If the phone lock is set to automatic, you do not need to enter your phone lock code until a different SIM card is inserted in the phone.

 *It is important that you remember your new code. If you forget it, you have to take your phone to your local Sony Ericsson retailer.*

To set the phone lock

- 1 ► Settings ► the General tab ► Security ► Locks ► Phone protection ► Protection and select an alternative.
- 2 Enter the phone lock code ► OK.

To unlock the phone

If the phone lock is on, enter your code ► OK.

To edit your phone lock code

► Settings ► the General tab ► Security ► Locks ► Phone protection ► Change code.

Keypad lock

Lock the keypad to avoid dialling a number by accident.

 *Calls to the international emergency number 112 can still be made, even when the keypad is locked.*

Automatic keylock

Use automatic keylock in standby to lock the keypad soon after the last key was pressed.

To set the automatic keylock

► Settings ► the General tab ► Security ► Automatic keylock.

To lock the keypad manually

From standby, press  ► Lock keys. You can still answer an incoming call and the keypad locks again after the call. The keypad remains locked until you unlock it manually.

I have problems with memory capacity or the phone is working slowly

Possible cause: The phone memory is full or the memory content is not properly organized.

Solution: Restart your phone every day to free memory and increase the capacity of your phone.

You also have the option to do a **Master reset**. Some of the personal data and settings you have made will be lost when you do this ➔ **83 Master reset**.

No battery icon appears when I start charging the phone

Possible cause: The battery is empty or has not been used for a long time.

Solution: It may take up to 30 minutes before the battery icon appears on the screen.

Some menu options appear in grey

Possible cause: A service is not activated or your subscription does not support the function.

Solution: Contact your network operator.

Possible cause: Since you cannot send themes, pictures and sounds that are copyright-protected, the **Send** menu is sometimes unavailable.

I do not understand the language in menus

Possible cause: The wrong language is set in the phone.

Solution: Change the language
➔ **14 Phone language**.

I cannot turn on the phone

Possible cause: The battery is discharged.

Solution: Recharge the battery ➔ **5 To charge the battery**.

Solution: Turn the phone on with the charger attached. If the phone can be turned on, restart the phone with no charger attached.

I cannot charge the phone or battery capacity is low

Possible cause: The charger is not properly connected to the phone.

Solution: Make sure that the charger connector clicks properly into place when connected ➔ **5 To charge the battery**.

Possible cause: The battery connection is poor.

Solution: Remove the battery and clean the connectors. You can use one of the following lightly soaked in alcohol; a soft brush, a cloth or a cotton bud. Make sure that the battery is completely dry before you put it back. Check that the battery connectors in the phone are not damaged.

Possible cause: The battery is worn out and needs to be replaced.

Solution: Try another battery and charger for the same phone model, or visit your retailer and ask them to verify if the battery and charger are working properly.

The phone turns itself off

Possible cause: The ① button has been pushed unintentionally.

Solution: Turn on the automatic key lock, or lock the keypad manually
➡ 79 Keypad lock.

Possible cause: The battery connection is poor.

Solution: Make sure the battery is inserted correctly
➡ 5 To insert SIM card and battery.

I cannot use SMS/text messages on my phone

Possible cause: Settings are missing or incorrect.

Solution: Contact your network operator to find out the correct SMS service centre setting
➡ 33 Text messaging (SMS).

I cannot use MMS/picture messages on my phone

Possible cause: Your subscription does not include data capability.

Solution: Please contact your network operator.

Possible cause: Settings are missing or incorrect.

Solution: ➡ 6 Help in your phone or go to www.sonyericsson.com/support, select your region and country, and choose Phone setup. Then choose your phone model, click Read more under Picture messaging (MMS) and follow the instructions
➡ 62 Settings.

I cannot use the Internet

Guidelines for Safe and Efficient Use

Please read this information before using your mobile phone.

These instructions are intended for your safety. Please follow these guidelines. If the product has been subject to any of the conditions listed below or you have any doubt as to its proper function make sure you have the product checked by a certified service partner before charging or using it. Failure to do so might entail a risk of product malfunction or even a potential hazard to your health.

Recommendations for safe use of product (mobile phone, battery, charger and other accessories)

- Always treat your product with care and keep it in a clean and dust-free place.
- Warning!** May explode if disposed of in fire.
- Do not expose your product to liquid or moisture or humidity.
- Do not expose your product to extremely high or low temperatures. Do not expose the battery to temperatures above +60°C (+140°F).
- Do not expose your product to open flames or lit tobacco products.
- Do not drop, throw or try to bend your product.
- Do not paint your product.
- Do not attempt to disassemble or modify your product. Only Sony Ericsson authorized personnel should perform service.

questions.AE@support.sonyericsson.com
 questions.GB@support.sonyericsson.com
 questions.US@support.sonyericsson.com
 questions.VE@support.sonyericsson.com

- Do not use your product near medical equipment without requesting permission from your treating physician or authorized medical staff.
- Do not use your product when in, or around aircraft, or areas showing the sign "turn off two-way radio".
- Do not use your product in an area where a potentially explosive atmosphere exists.
- Do not place your product or install wireless equipment in the area above an air bag in your car.

CHILDREN

KEEP OUT OF CHILDRENS REACH. DO NOT ALLOW CHILDREN TO PLAY WITH YOUR MOBILE PHONE OR ITS ACCESSORIES. THEY COULD HURT THEMSELVES OR OTHERS, OR COULD ACCIDENTALLY DAMAGE THE MOBILE PHONE OR ACCESSORY. YOUR MOBILE PHONE OR ITS ACCESSORY MAY CONTAIN SMALL PARTS THAT COULD BECOME DETACHED AND CREATE A CHOKING HAZARD.

Power supply (Charger)

Connect the AC power adapter only to designated power sources as marked on the product. Make sure the cord is positioned so that it will not be subjected to damage or stress. To reduce risk of electric shock, unplug the unit from any power source before attempting to clean it. The AC power adapter must not be used outdoors or in damp areas. Never alter the cord or plug. If the plug does not fit into the outlet, have a proper outlet installed by a qualified electrician.

Use only Sony Ericsson branded original chargers intended for use with your mobile phone. Other chargers may not be designed to the same safety and performance standards.

Battery

We recommend that you fully charge the battery before you use your mobile phone for the first time. A new battery or one that has not been used for a long time could have reduced capacity the first few times it is used. The battery should only be charged in temperatures between +5°C (+41°F) and +45°C (+113°F).

Use only Sony Ericsson branded original batteries intended for use with your mobile phone. Using other batteries and chargers could be dangerous.

Talk and standby times depend on several different conditions such as signal strength, operating temperature, application usage patterns, features selected and voice or data transmissions when the mobile phone is being used.

Turn off your mobile phone before removing the battery. Do not put the battery into your mouth. Battery electrolytes may be toxic if swallowed. Do not let the metal contacts on the battery touch another metal object. Doing this could short-circuit and damage the battery. Use the battery for the intended purpose only.

Personal medical devices

Mobile phones may affect the operation of pacemakers and other implanted equipment. Please avoid placing the mobile phone over the pacemaker, e.g. in your breast pocket. When using the mobile phone, use it at the ear on the opposite side of the body to the pacemaker. If a minimum distance of 15 cm (6 inches) is kept between the mobile phone and the pacemaker, the risk of interference is limited. If you have any reason to suspect that interference is taking place,

immediately turn off your mobile phone. Contact your cardiologist for more information. For other medical devices, please consult your physician and the manufacturer of the device.

Driving

Please check if local laws and regulations restrict the use of mobile phones while driving or require drivers to use handsfree solutions. We recommend that you use only Sony Ericsson handsfree solutions intended for use with your product.

Please note that because of possible interference to electronic equipment, some vehicle manufacturers forbid the use of mobile phones in their vehicles unless a handsfree kit with an external antenna has been installed.

Always pay full attention to driving and pull off the road and park before making or answering a call if driving conditions so require.

Emergency calls

Mobile phones operate using radio signals, which cannot guarantee connection in all conditions. You should therefore never rely solely upon any mobile phone for essential communications (e.g. medical emergencies).

Emergency calls may not be possible in all areas, on all cellular networks, or when certain network services and/or mobile phone features are in use. Check with your local service provider.

Antenna

This phone contains a built-in antenna. Use of antenna devices not marketed by Sony Ericsson specifically for this model could damage your mobile phone, reduce performance, and produce SAR levels above the established limits (see below).

Efficient use

Hold your mobile phone as you would any other phone. Do not cover the top of the phone when it is in use, as this affects call quality and may cause the phone to operate at a higher power level than needed, thus shortening talk and standby times.

Radio frequency (RF) exposure and Specific Absorption Rate (SAR)

Your mobile phone is a low-power radio transmitter and receiver. When it is turned on, it emits low levels of radio frequency energy (also known as radio waves or radio frequency fields).

Governments around the world have adopted comprehensive international safety guidelines, developed by scientific organizations, e.g. ICNIRP (International Commission on Non-Ionizing Radiation Protection) and IEEE (The Institute of Electrical and Electronics Engineers Inc.), through periodic and thorough evaluation of scientific studies. These guidelines establish permitted levels of radio wave exposure for the general population. The levels include a safety margin designed to assure the safety of all persons, regardless of age and health, and to account for any variations in measurements.

Specific Absorption Rate (SAR) is the unit of measurement for the amount of radio frequency energy absorbed by the body when using a mobile phone. The SAR value is determined at the highest certified power level in laboratory conditions, but the actual SAR level of the mobile phone while it is operating can be well below this value. This is because the mobile phone is designed to use the minimum power required to reach the network. Variations in SAR below the radio frequency exposure guidelines do not mean that there are variations in safety. While there may be differences in SAR levels among mobile phones, all Sony Ericsson mobile phone models are designed to meet radio frequency exposure guidelines.

For phones sold in the US, before a phone model is available for sale to the public, it must be tested and certified by the Federal Communications Commission (FCC) that it does not exceed the limit established by the government-adopted requirement for safe exposure. The tests are performed in positions and locations (that is, at the ear and worn on the body) as required by the FCC for each model. For body-worn operation, this phone has been tested and meets FCC RF exposure guidelines when the handset is positioned a minimum of 15 mm from the body without any metal parts in the vicinity of the phone or when used with the original Sony Ericsson accessory intended for this phone and worn on the body. Use of other accessories may not ensure compliance with FCC RF exposure guidelines.

A separate leaflet with SAR information about this mobile phone model is included with the material accompanying this mobile phone. This information can also be found, together with more information on radio frequency exposure and SAR, at www.sonyericsson.com/health.

Accessible Solutions/Special Needs

For phones sold in the US, you can use your TTY terminal with your Sony Ericsson mobile phone (with the necessary accessory). For information on Accessible Solutions for individuals with special needs call the Sony Ericsson Special Needs Center on 877 878 1996 (TTY) or 877 207 2056 (voice), or visit the Sony Ericsson Special Needs Center at www.sonyericsson-snc.com.

Disposal of old electrical and electronic equipment

This symbol indicates that all electrical and electronic equipment included shall not be treated as household waste. Instead it shall be left at the appropriate collection point for recycling of

electrical and electronic equipment. By ensuring this product is disposed of correctly, you will help prevent potential negative consequences for the environment and human health, which could otherwise be caused by inappropriate waste handling of this product. The recycling of materials will help to conserve natural resources. For more detailed information about recycling this product, please contact your local city office, your household waste disposal service or the shop where you purchased the product.

Disposing of the battery

Please check local regulations for disposal of batteries or call your local Sony Ericsson Call Center for information.

The battery should never be placed in municipal waste. Use a battery disposal facility if available.

Memory card

Your phone is equipped with a memory card reader. Check memory card compatibility before purchase or use.

Memory cards are generally formatted prior to shipping. To reformat the memory card, use a compatible device. Do not use the standard operating system format when formatting the memory card on a PC. For details, refer to the operating instructions of the memory card or contact customer support.

WARNING:

If the memory card requires an adapter for insertion into the phone or another device, do not insert the memory card directly without the required adapter.

Precautions on memory card use:

- Do not expose the memory card to moisture.
- Do not touch terminal connections with your hand or any metal object.
- Do not strike, bend, or drop the memory card.

- Do not attempt to disassemble or modify the memory card.
- Do not use or store the memory card in humid or corrosive locations or in excessive heat such as a closed car in summer, in direct sunlight or near a heater, etc.
- Do not press or bend the end of the memory card adapter with excessive force.
- Do not let dirt, dust, or foreign objects get into the insert port of any memory card adapter.
- Check you have inserted the memory card correctly.
- Insert the memory card as far as it will go into any memory card adapter needed. The memory card may not operate properly unless fully inserted.
- We recommend that you make a backup copy of important data. We are not responsible for any loss or damage to content you store on the memory card.
- Recorded data may be damaged or lost when you remove the memory card or memory card adapter, turn off the power while formatting, reading or writing data, or use the memory card in locations subject to static electricity or high electrical field emissions.

Protection of personal information

To safeguard your privacy and prevent information being accessible to a third party, you should erase all personal data before selling or disposing of the product. To delete personal data, perform a master reset and remove the memory card. **DELETION OF MATERIAL FROM THE PHONE MEMORY DOES NOT ENSURE THAT SAID INFORMATION CANNOT BE RECOVERED BY A SUBSEQUENT USER. SONY ERICSSON DOES NOT WARRANT AGAINST A SUBSEQUENT USER OF THE DEVICE ACCESSING YOUR INFORMATION AND DOES NOT ASSUME ANY RESPONSIBILITY FOR SUBSEQUENT DISCLOSURE OF SAID INFORMATION EVEN IF A MASTER RESET HAS BEEN PERFORMED.** If you are concerned about such potential disclosure retain your device or secure its permanent destruction.

Accessories

Sony Ericsson recommends use of Sony Ericsson original accessories for safe and efficient use of its products. Use of third-party accessories may decrease performance or pose a risk to your health or safety.

LOUDNESS WARNING:

Please adjust the audio volume cautiously when using third-party audio accessories to avoid volume levels that may be harmful to your hearing. Sony Ericsson does not test use of third-party audio accessories with this mobile phone. Sony Ericsson recommends using only Sony Ericsson original audio accessories.

End User Licence Agreement

This wireless device, including without limitation any media delivered with the device, ("Device") contains software owned by Sony Ericsson Mobile Communications AB and its affiliated companies ("Sony Ericsson") and its third party suppliers and licensors ("Software").

As user of this Device, Sony Ericsson grants you a non-exclusive, non-transferable, non-assignable license to use the Software solely in conjunction with the Device on which it is installed and/or delivered with. Nothing herein shall be construed as a sale of the Software to a user of this Device. You shall not reproduce, modify, distribute, reverse engineer, decompile, otherwise alter or use any other means to discover the source code of the Software or any component of the Software. For avoidance of doubt, you are at all times entitled to transfer all rights and obligations to the Software to a third party, solely together with the Device with which you received the Software, provided always that such third party agrees in writing to be bound by these rules.

You are granted this license for a term of the useful life of this Device. You can terminate this license by transferring all your rights to the Device on which you have received the Software to a third party in writing. If you fail to comply with any of the terms and conditions set out in this license, it will terminate with immediate effect.

Sony Ericsson and its third party suppliers and licensors are the sole and exclusive owner of and retain all rights, title and interest in and to the Software. Sony Ericsson, and, to the extent that the Software contains material or code of a third party, such third party, shall be entitled third party beneficiaries of these terms.

The validity, construction and performance of this license shall be governed by the laws of Sweden. The foregoing shall apply to the full extent permitted by, when applicable, statutory consumer rights.

Limited Warranty

Sony Ericsson Mobile Communications AB, SE-221 88 Lund, Sweden, (Sony Ericsson) or its local affiliated company, provides this Limited Warranty for your mobile phone and original accessory delivered with your mobile phone (hereinafter referred to as "Product").

Should your Product need warranty service, please return it to the dealer from whom it was purchased, or contact your local Sony Ericsson Call Center (national rates may apply) or visit www.sonyericsson.com to get further information.

OUR WARRANTY

Subject to the conditions of this Limited Warranty, Sony Ericsson warrants this Product to be free from defects in design, material and workmanship at the time of its original purchase by a consumer, and for a subsequent period of one (1) year.

WHAT WE WILL DO

If, during the warranty period, this Product fails to operate under normal use and service, due to defects in design, materials or workmanship, Sony Ericsson authorised distributors or service partners, in the country/region* where you purchased the Product, will, at their option, either repair or replace the Product in accordance with the terms and conditions stipulated herein.

Sony Ericsson and its service partners reserve the right to charge a handling fee if a returned Product is found not to be under warranty according to the conditions below.

Please note that some of your personal settings, downloads or other information may be lost when your Sony Ericsson Product is repaired or replaced. At present Sony Ericsson may be prevented by applicable law, other regulation or technical restrictions from making a backup copy of certain downloads. Sony Ericsson does not take any responsibility for any lost information of any kind and will not reimburse you for any such loss. You should always make backup copies of all the information stored on your Sony Ericsson Product such as downloads, calendar and contacts before handing in your Sony Ericsson Product for repair or replacement.

CONDITIONS

- 1 The warranty is valid only if the original proof of purchase issued to the original purchaser by a Sony Ericsson authorised dealer, specifying the date of purchase and serial number**, for this Product, is presented with the Product to be repaired or replaced. Sony Ericsson reserves the right to refuse warranty service if this information has been removed or changed after the original purchase of the Product from the dealer.
- 2 If Sony Ericsson repairs or replaces the Product, the repaired or replaced Product shall be warranted for the remaining time of the original warranty

period or for ninety (90) days from the date of repair, whichever is longer. Repair or replacement may involve the use of functionally equivalent reconditioned units. Replaced parts or components will become the property of Sony Ericsson.

- 3 This warranty does not cover any failure of the Product due to normal wear and tear, or due to misuse, including but not limited to use in other than the normal and customary manner, in accordance with the Sony Ericsson instructions for use and maintenance of the Product. Nor does this warranty cover any failure of the Product due to accident, software or hardware modification or adjustment, acts of God or damage resulting from liquid.

A rechargeable battery can be charged and discharged hundreds of times. However, it will eventually wear out – this is not a defect. When the talk-time or standby time is noticeably shorter, it is time to replace your battery. Sony Ericsson recommends that you use only batteries and chargers approved by Sony Ericsson.

Minor variations in display brightness and color may occur between phones. There may be tiny bright or dark dots on the display. These are called defective pixels and occur when individual dots have malfunctioned and can not be adjusted. Two defective pixels are deemed acceptable.

Minor variations in the appearance of the camera image may occur between phones. This is not uncommon in digital cameras and does not mean that the camera is defective in any way.

- 4 Since the cellular system on which the Product is to operate is provided by a carrier independent from Sony Ericsson, Sony Ericsson will not be responsible for the operation, availability, coverage, services or range of that system.
- 5 This warranty does not cover Product failures caused by installations, modifications, or repair or opening of the Product performed by a non-Sony Ericsson authorised person.

- 6 The warranty does not cover Product failures which have been caused by use of accessories or other peripheral devices which are not Sony Ericsson branded original accessories intended for use with the Product.
- 7 Tampering with any of the seals on the Product will void the warranty.
- 8 THERE ARE NO EXPRESS WARRANTIES, WHETHER WRITTEN OR ORAL, OTHER THAN THIS PRINTED LIMITED WARRANTY. ALL IMPLIED WARRANTIES, INCLUDING WITHOUT LIMITATION THE IMPLIED WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE, ARE LIMITED TO THE DURATION OF THIS LIMITED WARRANTY. IN NO EVENT SHALL SONY ERICSSON OR ITS LICENSORS BE LIABLE FOR INCIDENTAL OR CONSEQUENTIAL DAMAGES OF ANY NATURE WHATSOEVER, INCLUDING BUT NOT LIMITED TO LOST PROFITS OR COMMERCIAL LOSS; TO THE FULL EXTENT THOSE DAMAGES CAN BE DISCLAIMED BY LAW.

Some countries/states do not allow the exclusion or limitation of incidental or consequential damages, or limitation of the duration of implied warranties, so the preceding limitations or exclusions may not apply to you.

The warranty provided does not affect the consumer's statutory rights under applicable legislation in force, nor the consumer's rights against the dealer arising from their sales / purchase contract.

*EUROPEAN UNION (EU)

If you have purchased your Product in an EU country you can have your Product serviced, under the conditions set out above, within the warranty period in any EU country where an identical Product is sold by an authorised Sony Ericsson distributor. To find out if your Product is sold in the EU country you are in, please call the local Sony Ericsson Call Center. Please observe that certain services may not be possible elsewhere than in the country of original purchase, for example due to the fact that your Product may have an interior or exterior which is different from equivalent models sold in other EU countries. It may not be possible to repair SIM-locked Products. ** In some countries/regions additional information is requested. If so, this is clearly shown on the valid proof of purchase.
